

APPENDIX E:

Complete listing of Louisiana’s Ambient Surface Water Quality Monitoring Network sites. There are 482 ambient sites, and the “Type” column designates each as an Active (A) or Long-term Trend (L) site. The latitude and longitude provided are in WGS 84. Active sites are part of LDEQ’s four-year cyclical monitoring rotation. Each site is sampled monthly from October-September for one cycle, then not sampled for three cycles, before returning to the site in the fourth cycle. Long-term Trend sites are sampled every month of every cycle.

Site Number	Physical Subsegment	Assessment Subsegment	Site Description	Type	Latitude	Longitude
0001	LA060802_00	LA060802_00	Vermilion River North of Perry, Louisiana	L	29.951079	-92.156062
