**ENVIRONMENTAL QUALITY**

**Part I. Office of the Secretary**

**Subpart 1. Departmental Administrative Procedures**

**Chapter 12. Requests for Review of Environmental Conditions**

**§1203. Procedure for Submittal of Request**

A. - B.10. ...

C. An applicant shall submit the request for review, in accordance with the requirements of Subsection B of this Section, in triplicate, with the initial minimum fee in Subsection A of this Section, to the administrator of the Office of Environmental ~~Assessment~~Compliance.

D .- E.2. ...

AUTHORITY NOTE: Promulgated in accordance with R.S. 30:2001 et seq., and specifically 2011(D)(25), and R.S. 49:316.1(A)(2)(a) and (c).

HISTORICAL NOTE: Promulgated by the Department of Environmental Quality, Office of the Secretary, Legal Affairs Division, LR 33:447 (March 2007), amended LR 33:2079 (October 2007), LR 35:2178 (October 2009), LR 38:\*\*.

**Subpart 3. Laboratory Accreditation**

**Chapter 47. Program Requirements**

**§4701. Accreditation Process**

A. The department accreditation process comprises four basic steps:

1. the submittal to the Office of Environmental ~~Assessment~~Services of a written request from the laboratory in the form of an application provided by the department, along with payment of all applicable fees;

A.2. - B. ...

AUTHORITY NOTE: Promulgated in accordance with R.S. 30:2011.

HISTORICAL NOTE: Promulgated by the Department of Environmental Quality, Office of the Secretary, LR 24:919 (May 1998), amended by the Office of Environmental Assessment, Environmental Planning Division, LR 26:1435 (July 2000), amended by the Office of the Secretary, Legal Affairs Division, LR 31:2434 (October 2005), LR 33:2081 (October 2007). LR 38:\*\*.

#### **§4703. Application for Accreditation**

A. ...

B. An application for environmental laboratory accreditation shall be made in writing to the Office of Environmental ~~Assessment~~Services. This application shall provide all requested information and be accompanied by the appropriate application fee. Information will include at least one satisfactory round of the most recent department-specified proficiency evaluation test results or an analytical data package for test categories where no accessible proficiency tests exist. Supplemental information may be required.

C. - E. ...

AUTHORITY NOTE: Promulgated in accordance with R.S. 30:2011.

HISTORICAL NOTE: Promulgated by the Department of Environmental Quality, Office of the Secretary, LR 24:919 (May 1998), amended by the Office of Environmental Assessment, Environmental Planning Division, LR 26:1435 (July 2000), amended by the Office of the Secretary, Legal Affairs Division, LR 31:2434 (October 2005), LR 33:2081 (October 2007), LR 38:\*\*.

#### **§4705. Categories of Accreditation**

A. At the time of application each applicant must clearly identify both the fields of testing and the test categories for which accreditation is sought. A copy of the relevant test method documentation and the requisite equipment for the method must be available at the laboratory. A current list of approved methodologies for each parameter/analyte will be maintained by the Office of Environmental ~~Assessment~~Services, and a copy of the list will become a part of the application package. In cases where the methodology used by the laboratory is not listed, the laboratory shall submit documentation that will verify that the results obtained from the method in use are equal to or better than those results obtained from the approved methodology. The department will review the data submitted by the laboratory and will notify

the laboratory in writing within 60 calendar days if the method is acceptable or unacceptable as an alternate method of analysis.

B. - B.11. ...

C. An accredited laboratory may request the addition of field(s) of testing and test category(ies) to its scope of accreditation at any time. Such a request must be submitted in writing to the Office of Environmental ~~Assessment~~Services. Unless the previous on-site inspection can verify the competence of the laboratory to perform the additional tests, another on-site inspection may be required.

AUTHORITY NOTE: Promulgated in accordance with R.S. 30:2011.

HISTORICAL NOTE: Promulgated by the Department of Environmental Quality, Office of the Secretary, LR 24:919 (May 1998), amended by the Office of Environmental Assessment, Environmental Planning Division, LR 26:1435 (July 2000), LR 26:2443 (November 2000), repromulgated LR 27:38 (January 2001), amended by the Office of Environmental Assessment, LR 31:1570 (July 2005), amended by the Office of the Secretary, Legal Affairs Division, LR 31:2435 (October 2005), LR 33:2081 (October 2007), LR 38:\*\*.

#### **§4711. Proficiency Testing Participation**

A. - E. ...

F. Each participating laboratory shall authorize the proficiency test provider to release the results of the proficiency evaluation (PE) test to the Office of Environmental ~~Assessment~~Services at the same time that they are submitted to the laboratory. Every laboratory that receives test results that are "unacceptable" for a specific analyte must investigate and identify likely causes for these results, resolve any problems, and report such activity to the Office of Environmental ~~Assessment~~Services, along with the submittal of corrective action proficiency sample test results. The laboratory shall report only the analytes for which corrective action was required.

**§537. Louisiana General Conditions**

A. The Louisiana General Conditions listed in the table in this Section (numbered as historically designated in a permit) apply to each source that requires an air permit according to LAC 33:III.501 upon issuance of the initial air permit for the source and shall continue to apply until such time as the permit is terminated or rescinded. These Louisiana General Conditions shall supersede any previous versions of such conditions contained in air permits.

<p>VII. Any emissions testing performed for purposes of demonstrating compliance with the limitations set forth in Louisiana General Condition III shall be conducted in accordance with the methods described in the Specific Requirements of the permit. Any deviation from or modification of the methods used for testing shall have prior approval from the Office of Environmental <del>Assessment</del><u>Services</u>.</p>	
<p>VIII. The emission testing described in Louisiana General Condition VII, or established in the Specific Requirements of the permit, shall be conducted within 60 days after achieving normal production rate or after the end of the shakedown period, but in no event later than 180 days after initial start-up (or restart-up after modification). The Office of Environmental <del>Assessment</del><u>Services</u> shall be notified at least 30 days prior to testing and shall be given the opportunity to conduct a pretest meeting and observe the emission testing. The test results shall be submitted to the Office of Environmental <del>Assessment</del><u>Services</u> within 60 days after the completion of testing. As required by LAC 33:III.913, the permittee shall provide necessary sampling ports in stacks or ducts and such other safe and proper sampling and testing facilities as are necessary for proper determination of the emission limits.</p>

**§1410. Criteria for Determining Conformity of General Federal Actions**

A. - A.5.a. ...

i. the total of direct and indirect emissions from the action (or portion thereof) is determined and documented by the department to result in a level of emissions that, together with all other emissions in the nonattainment or maintenance area, would not exceed the emissions budgets specified in the applicable SIP. As a matter of policy, should the department make such determination or commitment, the federal agency must provide to the Office of Environmental ~~Assessment~~Services information on all known projects or other actions that may affect air quality or emissions in any area to which this rule is applicable, regardless of whether such project or action is determined to be subject to this rule under LAC 33:III.1405. The department may charge the federal agency requesting such determination a reasonable fee based on the number of manhours required to perform and document the determination; or

### **§2132. Stage II Vapor Recovery Systems for Control of Vehicle Refueling Emissions at Gasoline Dispensing Facilities**

A. - B.5. ...

6. The regulated facility shall submit the following application information to the Office of Environmental ~~Assessment~~Compliance prior to installation of the Stage II Vapor Recovery System:

6.a. - 8. ...

9. Upon request by the Department of Environmental Quality, the owner or operator of a facility that claims to be exempt from the requirements of this Section shall submit supporting records to the Office of Environmental ~~Assessment~~Compliance within 30 calendar days from the date of the request. The Department of Environmental Quality shall make a final determination regarding the exemption status of a facility.

C. - D. ...

1. The owner/operator of the facility shall have the installed vapor recovery equipment tested prior to the start-up of the facility. The owner or operator shall notify the Office of Environmental ~~Assessment~~Compliance at least five calendar days in advance of the scheduled date of testing. Testing must be performed by a contractor that is certified with the Department of Environmental Quality. Compliance with the emission specification for Stage II equipment shall be demonstrated by passing the following required tests or equivalent for each type of system:

1.a. - 2. ...

3. The department reserves the right to confirm the results of the aforementioned testing at its discretion and at any time. Within 30 days after installation or major system modification of a vapor recovery system, the owner or operator of the facility shall submit to the Office of Environmental ~~Assessment~~Compliance the date of completion of the installation or major system modification of a vapor recovery system and the results of all functional testing requirements.

### **Subchapter M. Limiting Volatile Organic Compound (VOC) Emissions from Industrial Wastewater**

#### **§2153. Limiting VOC Emissions from Industrial Wastewater**

A. - G.4.a. ...

b. in order to maintain exemption status under this Subsection, the owner or operator shall submit an annual report no later than March 31 of each year, starting in 1997, to the Office of Environmental ~~Assessment~~Compliance that demonstrates that the overall control of VOC emissions at the affected source category from which wastewater is generated

during the preceding calendar year is at least 90 percent less than the 1990 baseline emissions inventory. At a minimum, the report shall include the EPN; the PIN; the throughput of wastewater from affected source categories; a plot plan showing the location, EPN, and PIN associated with a wastewater storage, handling, transfer, or treatment facility; and the VOC emission rates for the preceding calendar year. The emission rates for the preceding calendar year shall be calculated in a manner consistent with the 1990 baseline emissions inventory; and

c. all representations in initial control plans and annual reports become enforceable conditions. It shall be unlawful for any person to vary from such representations if the variation will cause a change in the identity of the specific emission sources being controlled or the method of control of emissions, unless the owner or operator of the wastewater component submits a revised control plan to the Office of Environmental ~~Assessment~~Services within 30 days of the change. All control plans and reports shall include documentation that the overall reduction of VOC emissions from wastewater at the affected source categories continues to be at least 90 percent less than the 1990 baseline emissions inventory. The emission rates shall be calculated in a manner consistent with the 1990 baseline emissions inventory.

5. ...

a. each request for an exemption determination shall be submitted to the Office of Environmental ~~Assessment~~Services. Each request shall demonstrate that the overall control of VOC emissions from wastewater at the affected source categories will be at least 80 percent less than the 1990 baseline emissions inventory. The request shall include the applicable EPN; the PIN; the calendar year throughput of wastewater from affected source categories; the VOC emission rates; and a plot plan showing the location, EPN, and PIN associated with a wastewater storage, handling, transfer, or treatment facility. The emission rates shall be calculated in a manner consistent with the 1990 baseline emissions inventory;

b. ...

c. all representations in initial control plans and annual reports become enforceable conditions. It shall be unlawful for any person to vary from such representations if the variation will cause a change in the identity of the specific emission sources being controlled or the method of control of emissions unless the owner or operator of

the wastewater component submits a revised control plan to the Office of Environmental ~~Assessment~~Services within 30 days of the change. All control plans and reports shall include documentation that the overall reduction of VOC emissions at the plant from wastewater affected source categories continues to be at least 80 percent less than the 1990 baseline emissions inventory.

## **Chapter 51. Comprehensive Toxic Air Pollutant Emission Control Program**

### **Subchapter A. Applicability, Definitions, and General Provisions**

#### **§5113. Notification of Start-Up, Testing, and Monitoring**

A. - B. ...

1. The department may require any owner or operator to conduct tests to determine the emission of toxic air pollutants from any source whenever the department has reason to believe that an emission in excess of those allowed by this Subchapter is occurring. The department may specify testing methods to be used in accordance with good professional practice. The department may observe the testing. The Office of Environmental

AssessmentServices shall be notified at least 30 days prior to testing to afford the department the opportunity to conduct a pretest conference and to have an observer present. All tests shall be conducted by qualified personnel. The Office of Environmental AssessmentServices shall be given a copy of the test results in writing signed by the person responsible for the tests within 60 days after completion of the test.

2. - 4.e. ...

5. Unless otherwise specified, samples shall be analyzed and emissions determined within 30 days after each emission test has been completed. The owner or operator shall report the determinations of the emission test to the Office of Environmental AssessmentServices by a certified letter sent before the close of business on the sixtieth day following the completion of the emission test.

6. ...

7. The owner or operator shall notify the Office of Environmental AssessmentServices of any emission test required to demonstrate compliance with this Subchapter at least 30 days before the emission test to allow the administrative authority the opportunity to have an observer present during the test.

C. - C.1. ...

2. When required at any other time requested by the administrative authority, the owner or operator of a source being monitored shall conduct a performance evaluation of the monitoring system and furnish the Office of Environmental AssessmentServices with a copy of a written report of the results within 60 days of the evaluation. The owner or operator of the source shall furnish the Office of Environmental AssessmentServices with written notification of the date of the performance evaluation at least 30 days before the evaluation is to begin.

3. - 4. ...

5. The administrative authority may require a continuous monitoring system where such systems are deemed feasible and necessary to demonstrate compliance with applicable standards. The owner or operator of a facility that the administrative authority has required to install a continuous monitoring system shall submit to the Office of Environmental AssessmentServices for approval a plan describing the affected sources and the methods for ensuring compliance with the continuous monitoring system. The plan for the continuous

monitoring system must be submitted to the department within 90 days after the administrative authority requests either the initial plan or an updated plan.

**§515. Revisions to the Final Remedy**

A. - B. ...

1. notify the Office of Environmental ~~Assessment~~Compliance that a modification is necessary;

2. - 3. ...

C. If the department determines that a modification is necessary (whether proposed by a PRP or by the department) and if the modification changes the final remedy in the final decision document, then the Office of Environmental ~~Assessment~~Compliance shall:

1. - 3. ...

AUTHORITY NOTE: Promulgated in accordance with R.S. 30:2271 et seq.

HISTORICAL NOTE: Promulgated by the Department of Environmental Quality, Office of Environmental Assessment, Environmental Planning Division, LR 25:2191 (November 1999), amended LR 26:2512 (November 2000), amended by the Office of the Secretary, Legal Affairs Division, LR 33:2138 (October 2007), LR 38:\*\*.

**§521. Post-Remedial Management**

A. - A.2. ...

B. Operation and Maintenance. An operation and maintenance (O and M) plan shall be prepared for all sites assigned post-remedial management because hazardous substances remain at the site at levels above remedial goals or where O and M is part of the approved remedy. O and M plans prepared by PRPs shall be submitted to the Office of Environmental ~~Assessment~~Compliance for review and approval. The department will provide comments to the PRPs and require revisions as necessary before approving the PRPs' plan. O and M plans prepared by PRPs for a site where leaving hazardous substances at the site is part of the approved and completed remedy shall be submitted to the department for review and approval at least six months prior to completion of the remedy. Each O and M plan shall include, but not be limited to:

1. - 8. ...

C. Monitoring. If required by the department, a monitoring plan shall be developed by the Office of Environmental ~~Assessment~~Compliance, or by PRPs as directed by the

department. A monitoring plan prepared by PRPs shall be submitted to the department for review and approval. The department shall provide comments to the PRPs and require revisions as necessary before approving the PRPs' plan. This plan shall include a description of provisions for monitoring of site conditions during the post-remedial management period to prevent further endangerment to human health and the environment, including:

## **Chapter 7. Settlement and Negotiations**

### **§705. Negotiations**

A. - B.4. ...

C. Negotiations after Issuance of Administrative Orders. PRPs who have received unilateral administrative orders may negotiate with the Office of Environmental ~~Assessment~~Compliance for dismissal of the administrative order upon execution of a cooperative

agreement unless an emergency situation has been declared or the department determines that a stay of remedial actions or of enforcement will be detrimental to the public health, welfare, or the environment. The department has sole discretion in determining whether to enter into negotiations after issuance of a unilateral administrative order. Except by written determination of the department, no request for or conduct of negotiations in accordance with this Section shall serve to stay or modify the terms of any such unilateral administrative order.

## **Chapter 9. Voluntary Remediation**

### **§911. Application Process**

A. Voluntary Remedial Investigation Applications. Prior to performing a remedial investigation and submission of the application in Subsection B of this Section, the applicant may submit a voluntary remedial investigation application for review and approval by the administrative authority, which consists of the following:

1. a Voluntary Remedial Investigation Application Form VCP001, available from the Office of Environmental ~~Assessment~~Compliance and on the department's website, with required attachments, accompanied by the remedial investigation work plan review fee; and

2 - 2.f. ...

B. Voluntary Remediation Applications. Prior to implementation of a voluntary remedial action at a site, applicants must submit a voluntary remediation application to the Office of Environmental ~~Assessment~~Compliance for review and final approval. The application shall consist of the following:

1. a Voluntary Remediation Application Form VCP002, available from the Office of Environmental ~~Assessment~~Compliance and on the department's website, with required attachments, accompanied by the remedial action plan review fee;

B.2. - C.1. ...

2. After the application is accepted for public review and before the beginning of the public comment period provided in Subsections D and F of this Section, the applicant shall provide the number of copies of the accepted application specified by the administrative authority to the Office of Environmental ~~Assessment~~Compliance.

3. ...

D. **Public Notice.** Upon acceptance of the voluntary remediation application, as set forth in Subsection C of this Section, the applicant must place a public notice of the proposed voluntary remedial action plan in the local newspaper of general circulation in the parish where the voluntary remediation site is located. The public notice shall be a single classified advertisement at least 4 inches by 6 inches in size in the legal or public notices section. The applicant must provide proof of publication of the notice to the Office of Environmental ~~Assessment~~Compliance prior to final approval of the plan. The public notice shall:

1. - 2. ...

3. indicate that comments shall be submitted to the Office of Environmental ~~Assessment~~Compliance (including the contact person, mailing address, and physical address), as well as indicate the deadline for submission of comments;

4. - 5. ...

E. **Direct Notice to Landowners.** Within five days of the public notice in Subsection D of this Section, the applicant must send a direct written notice of the voluntary remedial action plan to persons owning immovable property contiguous to the voluntary remediation site. This notice shall be sent to persons listed as owners of the property on the rolls of the parish tax assessor as of the date on which the voluntary remediation application is submitted. The notice must be sent by certified mail and contain the same information that is provided in the public notice. Return receipts or other evidence of the receipt or attempted delivery of the direct notice must be provided to the Office of Environmental ~~Assessment~~Compliance prior to final approval of the plan.

F. **Public Hearing and Comment**

1. Comments on the voluntary remedial action plan shall be accepted by the Office of Environmental ~~Assessment~~Compliance for a period of 30 days after the date of the public notice and shall be fully considered by the administrative authority prior to final approval of the plan. However, if the administrative authority determines a shorter or longer comment period is warranted, the administrative authority may provide for a shorter or longer comment period in the public notice described in Paragraph D.1 of this Section. Also, the comment period

provided in the public notice may be extended by the administrative authority if the administrative authority determines such an extension is warranted.

## **Part XI. Underground Storage Tanks**

### **Chapter 3. Registration Requirements, Standards, and Fee Schedule**

#### **§301. Registration Requirements**

A. - A.2. ...

3. All existing UST systems previously registered with the department shall be considered to be in compliance with this requirement if the information on file with the department is current and accurate. Maintaining current and accurate information with the department includes notifying the Office of Environmental ~~Assessment~~Compliance of changes in ownership, or of changes in UST system descriptions resulting from upgrading, by filing an amended registration form within 30 days of the change in ownership or in description of the UST system.

B. **New UST Systems.** Upon the effective date of these regulations, all owners of new *UST systems* (as defined in LAC 33:XI.103) must, at least 30 days before bringing such tanks into use, register them on an *Underground Storage Tank Registration Form* (UST-REG-01). Registration forms shall be filed with the Office of Environmental ~~Assessment~~Compliance. The following registration requirements apply to new UST systems.

1. - 2. ...

C. All UST system owners or operators shall comply with the following requirements.

1. Any person who sells a UST system shall so notify the Office of Environmental ~~Assessment~~Compliance in writing within 30 days after the date of the transaction. A person selling a UST must also notify the person acquiring a regulated UST system of the owner's registration obligations under this Section.

2. Any person who acquires a UST system shall submit to the Office of Environmental ~~Assessment~~Compliance an amended registration form within 30 days after the date of acquisition.

### **§303. Standards for UST Systems**

A. - C.1. ...

2. The department may grant an extension to these dates only in the event that the UST or UST system installation is delayed due to adverse weather conditions or other unforeseen, unavoidable circumstances. A written contract alone does not qualify as an unforeseen, unavoidable circumstance. In order to obtain an extension, the UST owner must submit a written request to the Office of Environmental ~~Assessment~~Compliance, describing the circumstances that have caused the installation delay.

D. - D.6.b.i.(e). ...

ii. Beginning January 20, 1992, all owners and operators must ensure that the individual exercising supervisory control over *installation critical-junctures* (as

defined in LAC 33:XI.1303) of a UST system is certified in accordance with LAC 33:XI.Chapter 13. To demonstrate compliance with Subparagraph D.6.a of this Section, all owners and operators must provide a certification of compliance on the UST Registration of Technical Requirements Form (UST-REG-02) within 60 days of the introduction of any regulated substance. Forms shall be filed with the Office of Environmental ~~Assessment~~Compliance.

c. Notification of Installation. The owner and operator must notify the Office of Environmental ~~Assessment~~Compliance in writing at least 30 days before beginning installation of a UST system by:

6.c.i. ...

ii. notifying the appropriate regional office of the Office of Environmental ~~Assessment~~Compliance by mail or fax seven days prior to commencing the installation and before commencing any *installation-critical juncture* (as defined in LAC 33:XI:1303);

D.6.c.iii. - E.6. ...

a. The owner and operator must notify the Office of Environmental ~~Assessment~~Compliance in writing at least 30 days before beginning a UST system upgrade.

b. An amended registration form (UST-REG-02) must be submitted to the Office of Environmental ~~Assessment~~Compliance within 30 days after the UST system is upgraded. The owner and operator must certify compliance with Subsection C of this Section on the amended registration form (UST-REG-02). Beginning January 20, 1992, the amended registration forms (UST-REG-01 and 02) shall include the name and department-issued certificate number of the individual exercising supervisory control over those steps in the upgrade that involve repair-critical junctures or installation-critical junctures (as defined in LAC 33:XI.1303) of a UST system.

### **§715. Release Response and Corrective Action for UST Systems Containing Petroleum or Hazardous Substances**

A. - C.f. ...

2. Within 20 days after release confirmation or another reasonable period of time determined by the department in writing, owners and operators must submit a report to the Office of Environmental Assessment Compliance summarizing the initial abatement steps taken under Paragraph C.1 of this Section and any resulting information or data.

D. - D.1.e. ...

2. Within 60 days of release confirmation or another reasonable period of time determined by the department in writing, owners and operators must submit the information collected in compliance with Paragraph D.1 of this Section to the Office of Environmental ~~Assessment~~Compliance in a manner that demonstrates its applicability and technical adequacy, or in a format and according to the schedule required by the department.

E. Free Product Removal. At sites where investigations under Subparagraph C.1.f of this Section indicate the presence of free product, owners and operators must remove free product to the maximum extent practicable as determined by the Office of Environmental ~~Assessment~~Compliance, while continuing, as necessary, any actions initiated under Subsections B-D of this Section, or preparing for actions required under Subsections F-G of this Section. To meet the requirements of this Subsection, owners and operators must take the following actions.

1. - 3. ...

4. Unless directed to do otherwise by the department, prepare and submit to the Office of Environmental ~~Assessment~~Compliance, within 45 days after confirming a release, a free product removal report that provides at least the following information:

E.4.a. - G.4. ...
