

# How To Make Payments Online

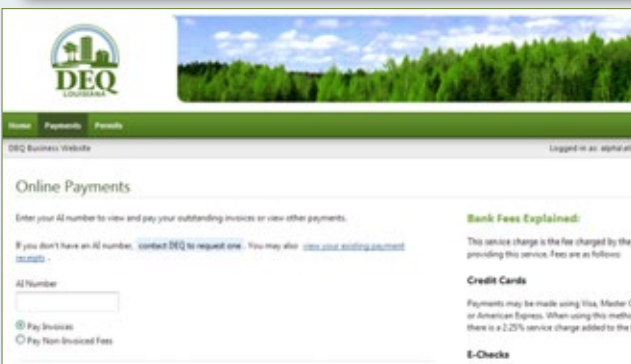

Visit: <https://business.deq.louisiana.gov/>

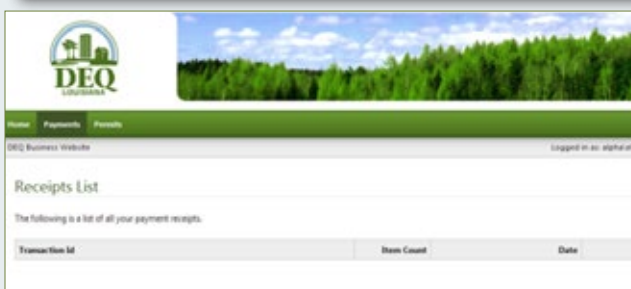

Screen to create a new account.

Screen to log into account.

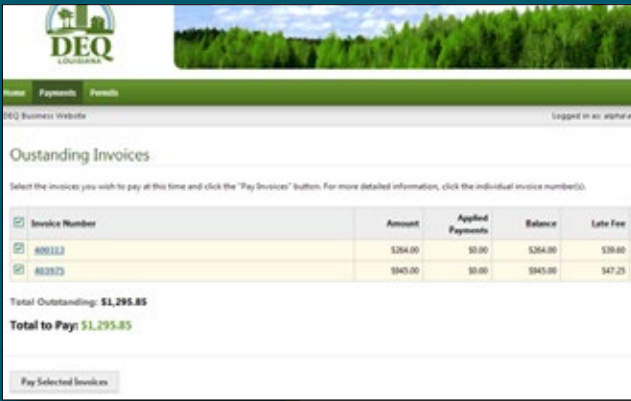

User can select to pay invoices received or prepaid invoices. User must have an AI number to pay both types of fees. The AI number is the Agency Interest number and is the Department's primary identifying number based on a physical location. The AI number can be found on permits, invoices, and correspondence from the department. If the user does not have an AI number for a new location, there is a link for an email address to request one. **You may only pay fees for one individual AI at a time.**

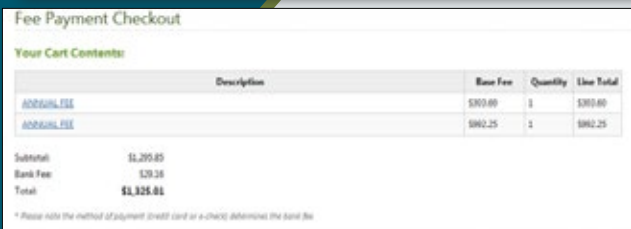

To see invoices and fees previously paid online there is a link to view existing payment receipts.

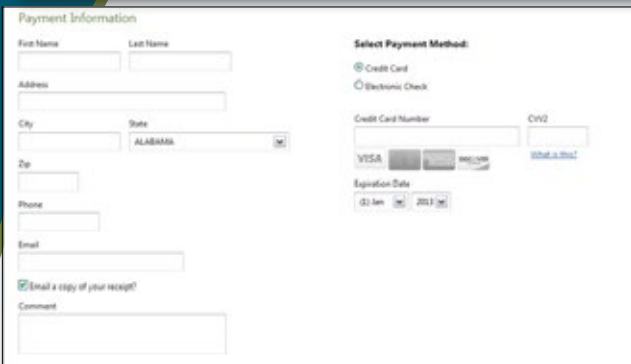

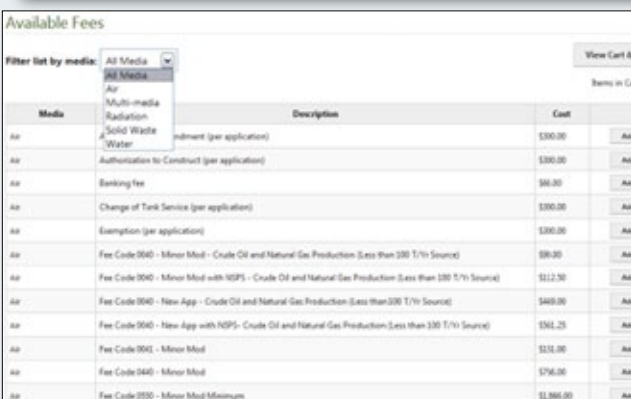

On the Online Payment Main Menu screen input your AI number and select “Pay Invoices” to see current open invoices. Payments made online are not immediately posted to the invoice.

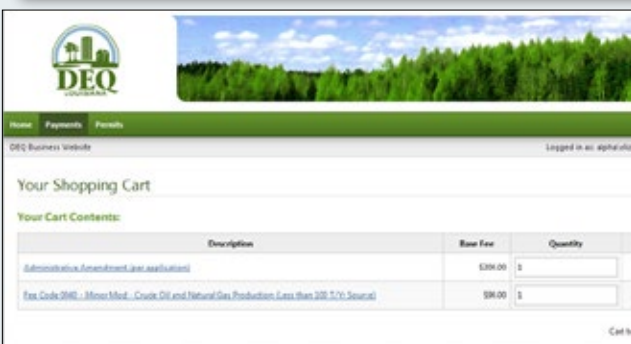

Once you have selected the invoices you wish to pay, hit, “Pay Selected Invoices” to go to the check out screen.

Payment information screen.

If you wish to submit payment for a pre-paid application fee select “Pay Non-Invoiced Fees” from the online payments screen. You will be given a menu of items to “Add To Cart”. Fees submitted should only be for the AI indicated. There is a filter option if you wish to reduce the fees displayed on the screen.

You may pay fees for multiple applications at one time as long as all the applications are for the AI you indicated. Proceeding to checkout will take you to the check out screen.
