**LDEQ hosting webinar on Sanitary Discharge General Permits and reporting requirements March 21**

**BATON ROUGE** - The Louisiana Department of Environmental Quality will hold a live webinar consisting of an overview of the new permit for Class I Sanitary Discharges and NetDMR reporting requirements on Wednesday, March 21 from 10 a.m. to 11 a.m.

This EnviroSchool session will include an overview of the new LPDES (Louisiana Pollutant Discharge Elimination System) LAG530000 Permit for Class I Sanitary Discharge General Permit holders, as well as other upcoming Reissued Sanitary Discharge General Permits.

The session will also cover permit updates, permit requirements, what is currently required and how to access permit information required at your site. Attendees will also learn about the electronic reporting of Discharge Monitoring Reports (known as NetDMR) required under this permit.

This will provide an overview of NetDMR as the approved electronic DMR submittal program), the NetDMR registration process, how to access step by step instructions on the website, and dates for future hands-on NetDMR classes.

The course is free.
