### NetDMR online reporting training to be offered again by DEQ

BATON ROUGE – The Louisiana Department of Environmental Quality is offering training on the use of the NetDMR online application for the submission of discharge monitoring reports. A discharge monitoring report, known as a DMR, is a self-reporting document that is generated by facilities that have a Louisiana Pollutant Discharge Elimination System permit. The DMR contains information pertaining to water discharges into waters of the state.

DEQ's training is conducted in person in a computer lab setting to allow for hands-on experience using NetDMR. The one-day session lasts approximately **three** hours and is intended to provide permittees and data providers with an overview of the NetDMR application which will enable the online submission of Discharge Monitoring Reports. Participants will walk through registering for an account, entering data, and signing and submitting a DMR online using the NetDMR test environment.

The training schedule is as follows:

#### **Baton Rouge**

Wednesday, Oct. 12  
8:30am - 11:30am  
DEQ Headquarters  
602 N. 5th Street  
Baton Rouge  
[Map](#)

#### **New Orleans**

Thursday, Nov. 17  
8:30 am to 11:30 am  
University of New Orleans Lakefront Campus  
People Soft Lab 2<sup>nd</sup> floor of the Science Building
