SETTLEMENT

The following Settlement is hereby agreed to between Exxon Mobil Corporation (“Respondent”) and the Department of Environmental Quality (“DEQ” or “the Department”), under authority granted by the Louisiana Environmental Quality Act, La. R.S. 30:2001, et seq. (“the Act”).

I

Respondent is a corporation that owns and/or operates a resin finishing facility at in Baton Rouge, East Baton Rouge Parish, Louisiana (“the Facility”).

II

On October 16, 2008, the Department issued to Respondent a Consolidated Compliance Order and Notice of Potential Penalty, Enforcement No. AE-CN-08-0120, which was based upon the following findings of fact:

The Respondent owns and/or operates Baton Rouge Resin Finishing Plant (the Facility), which is located at 12840 Scenic Highway Baton Rouge, East Baton Rouge Parish, Louisiana. The Facility is permitted as a minor stationary source and has been in operation prior to 1969. The Facility previously operated under Air Permit No. 0840-00035-10 issued September 8, 2002,

which was administratively amended May 22, 2003. The facility is currently operating under Air Permit No. 0840-00035-11 issued July 16, 2004. Baton Rouge Resin Finishing Plant receives resin solutions from ExxonMobil Baton Rouge Chemical Plant Escorez 1000 (E-1000) and Escorez 5000 (E-5000) Units. The resin solution is pumped to storage tanks prior to stripping the diluents .

During a meeting with the Respondent, on or about February 1, 2008 and a subsequent file review conducted on or about July 7, 2008, the following violations were disclosed:

The Respondent failed a single stack test on one particular grade of product. The 2007 annual emissions for the E402 Vent (Emission Point #V-03) were estimated to be 11.1 tons per year (tpy) of VOCs instead of the permitted amount of 4.64 tpy. Below is the table of the Louisiana Toxic Air Pollutant (LTAP) species actual emissions vs permit limit.

| LTAP                    | 2007 Actual Emission (TPY) | Permit Limit (TPY) |
|-------------------------|----------------------------|--------------------|
| n-Hexane                | 1.96                       | 1.56               |
| Methyl tert-Butyl Ether | 0.45                       | 0.01               |
| 2,2,4 Trimethylpentane  | 0.03                       | 0.01               |

The exceedence of each LTAP and VOC is a violation of Air Permit 0840-00035-11, LAC 33:III.501.C.4, LAC 33:III.905, La R.S. 30:2057(A)(1) , and 30:2057(A)(2).

- D. If Respondent does not spend the amount of Fifty-Four Thousand One Hundred Fifty and No/100 Dollars (\$54,150.00), then it shall, in its final report, propose additional projects for the Department's approval [or pay to the Department] in an amount equal to the difference between the amount of money agreed to be spent and the amount of money actually spent.
