SETTLEMENT

The following Settlement is hereby agreed to between Owensby & Kritikos, Inc. ("Respondent") and the Department of Environmental Quality ("DEQ" or "the Department"), under authority granted by the Louisiana Environmental Quality Act, La. R.S. 30:2001, et seq. ("the Act").

I

Respondent is a corporation that performs industrial radiography. Respondent's office is located at 671B Whitney Avenue, Gretna, Jefferson Parish, Louisiana.

II

On August 3, 2010, the Department issued to Respondent a Penalty Assessment, Enforcement No. RE-P-10-015, in the amount of \$41,241.97, which was based upon the following findings of fact:

The Respondent operates under the provisions of Radioactive Material License No. LA-2234-L01 issued by the Department on September 26, 2008.

On or about November 16, 2009, and November 23, 2009, inspections were conducted at the Respondent's facility due to a self-reported radiation overexposure submitted to the Department on

November 13, 2009. The Respondent notified the Department by telephone on November 13, 2009, and was assigned tracking nos. S09-3754 and T-119548. The Respondent submitted a written report to the Department on or about December 10, 2009. According to the notification letter, the overexposure incident occurred on November 12, 2009, at an offsite industrial radiographic worksite at the Conoco Philips Alliance Refinery located at 15551 Louisiana Highway 23 in Belle Chase, Plaquemines Parish, Louisiana. The incident involved two industrial radiographers, Zack Barret, instructor (AI No. 149423), and Cody Camet, industrial radiographer (AI No. 156893). Mr. Zack Barret failed to conduct a physical radiation survey of the camera prior to initiating accidental contact with the source while attempting to install a safety plug in the camera. The camera used by the radiographers on November 12, 2009, was an Ammersham Model 660B that contained a 78.9 Curie Ir-192 source.

The following violations were noted:

- A. During the course of the inspection, it was noted that the Mr. Zack Barret, instructor, and Mr. Cody Camet, radiographer, failed to notify the Radiation Safety Officer (R.S.O.) of the incident involving physical contact with an industrial radiographic source that occurred on November 12, 2009, until November 13, 2009. This is a violation of LAC 33:XV.320.A.2 and the Emergency Procedures, Section Emergency Procedures.
- B. During the course of the inspection, it was noted that the Respondent failed to control the occupational dose limits to individual adults to the annual limit of 5 Rem. Mr. Zack Barret, instructor, received a Total Effective Dose Equivalence (TEDE) of 5,571 mRem during the incident on November 12, 2009, and an annual TEDE of 6,678 mRem. This is a violation of LAC 33:XV.410.A.1.a. This is a repeat violation as cited in the Compliance Order and Notice of Potential Penalty Enforcement Tracking No. RE-CN-00-0197 issued on June 29, 2001.

- C. During the course of the inspection, it was noted that the Respondent failed to control the occupational dose limit to an individual's shallow dose equivalent of 50 Rem to the skin of the extremities. Based upon the incident radiation exposure calculations by the R.S.O., Mr. Zack Barret, instructor, received a shallow dose equivalent of 94.571 Rem to his right hand and 33.755 Rem to his left hand. This is a violation of LAC 33:XV.410.A.2.b.
- D. During the course of the inspection, it was noted that the Respondent failed to ensure that Mr. Zack Barret, instructor, ceased utilizing radiation after the overexposure that occurred on November 12, 2009. Further, the Department noted during the course of the inspection that both radiographers' pocket dosimeters went off scale following the overexposure incident. This is a violation of LAC 33:XV.577.E.
- E. During the course of the inspection, it was noted that the Respondent's industrial radiographers failed to conduct a physical radiation survey to ensure that the source had been returned to its fully shielded position within the camera unit after the radiographic exposure resulting in the overexposure. This is a violation of LAC 33:XV.587.B.

On March 8, 2010, a Consolidated Compliance Order and Notice of Potential Penalty (CONOPP), Enforcement Tracking No. RE-CN-10-004, was issued to the Respondent.
