STATE OF LOUISIANA
DEPARTMENT OF ENVIRONMENTAL QUALITY

IN THE MATTER OF:

BRIDGELINE HOLDINGS, L.P.
AI #s 24330, 24332, 27281

PROCEEDINGS UNDER THE LOUISIANA ENVIRONMENTAL QUALITY ACT

SETTLEMENT

The following Settlement is hereby agreed to between Bridgeline Holdings, L.P. ("Respondent") and the Department of Environmental Quality ("DEQ" or "the Department"), under authority granted by the Louisiana Environmental Quality Act, L.a. R.S. 30:2001, et seq. ("the Act").

I

Respondent is a partnership that owned and/or operated facilities located in Cameron Parish, Vermilion Parish, and Assumption Parish, Louisiana ("the Facilities").

II

On January 10, 2020, the Department issued to Respondent a Notice of Potential Penalty, Enforcement No. AE-PP-18-00948 (Exhibit 1).

III

Respondent denies it committed any violations or that it is liable for any fines, forfeitures and/or penalties.

IV

Nonetheless, Respondent, without making any admission of liability under state or federal
statute or regulation, agrees to pay, and the Department agrees to accept, a payment in the amount of FIFTEEN THOUSAND SEVEN HUNDRED AND NO/100 DOLLARS ($15,700.00), of which One Thousand Four Hundred Thirty-Five and 35/100 Dollars ($1,435.35) represents the Department’s enforcement costs, in settlement of the claims set forth in this agreement. The total amount of money expended by Respondent on cash payments to the Department as described above, shall be considered a civil penalty for tax purposes, as required by La. R.S. 30:2050.7(E)(1).

V

Respondent further agrees that the Department may consider the inspection report(s), permit record(s), the Notice of Potential Penalty, and this Settlement for the purpose of determining compliance history in connection with any future enforcement or permitting action by the Department against Respondent, and in any such action Respondent shall be estopped from objecting to the above-referenced documents being considered as proving the violations alleged herein for the sole purpose of determining Respondent's compliance history.

VI

This agreement shall be considered a final order of the Secretary for all purposes, including, but not limited to, enforcement under La. R.S. 30:2025(G)(2), and Respondent hereby waives any right to administrative or judicial review of the terms of this agreement, except such review as may be required for interpretation of this agreement in any action by the Department to enforce this agreement.

VII

This settlement is being made in the interest of settling the state's claims and avoiding for both parties the expense and effort involved in litigation or an adjudicatory hearing. In agreeing to the compromise and settlement, the Department considered the factors for issuing civil penalties set

VIII

As required by law, the Department has submitted this Settlement Agreement to the Louisiana Attorney General for approval or rejection. The Attorney General’s concurrence is appended to this Settlement Agreement.

IX

The Respondent has caused a public notice advertisement to be placed in the official journal of the parish governing authority in Cameron Parish, Vermilion Parish, and Assumption Parish, Louisiana. The advertisement, in form and wording approved by the Department, announced the availability of this settlement for public view and comment and the opportunity for a public hearing. Respondent has submitted an original proof-of-publication affidavit and an original public notice to the Department and, as of the date this Settlement is executed on behalf of the Department, more than forty-five (45) days have elapsed since publication of the notice.

X

Payment is to be made within ten (10) days from notice of the Secretary's signature. If payment is not received within that time, this Agreement is voidable at the option of the Department. Payments are to be made by check, payable to the Department of Environmental Quality, and mailed or delivered to the attention of Accountant Administrator, Financial Services Division, Department of Environmental Quality, Post Office Box 4303, Baton Rouge, Louisiana, 70821-4303. Each payment shall be accompanied by a completed Settlement Payment Form (Exhibit A).

XI

In consideration of the above, any claims for penalties are hereby compromised and settled in accordance with the terms of this Settlement.
XII

Each undersigned representative of the parties certifies that he or she is fully authorized to execute this Settlement Agreement on behalf of his or her respective party, and to legally bind such party to its terms and conditions.

RE: NOTICE OF POTENTIAL PENALTY  
ENFORCEMENT TRACKING NO. AE-PP-18-00948  
AGENCY INTEREST NOS. 24330, 24332, and 27281

Dear Sir/Madam:

On or about August 23, 2018, an inspection of GRAND CHENIER COMPRESSOR STATION  
(Agency Interest No. 24330, the facility), a natural gas pipeline compressor station, owned and/or operated  
by BRIDGELINE HOLDINGS, L.P. (RESPONDENT), was performed to determine the degree of  
compliance with the Louisiana Environmental Quality Act (the Act) and the Air Quality Regulations. The  
facility is located at 4119 Grand Chenier Highway in Grand Chenier, Cameron Parish, Louisiana. The  
facility currently operates under the Title V Permit No. 0560-00058-V8 issued on January 12, 2015.

While the investigation by the Louisiana Department of Environmental Quality (the Department)  
is not yet complete, the following violations were noted during the course of the inspection and subsequent  
file review performed on October 3, 2019:

The Respondent failed to keep records of oil and filter changes on four (4) Waukesha  
Engines (CRG001). Specifically, the Respondent is required to conduct oil and filter  
changes every 2,160 hours of operation or annually, whichever comes first. The  
Respondent failed to maintain record of oil and filter changes in 2016 for EQT002,  
EQT003, EQT004, and EQT005 and in 2017 for EQT002, EQT004, and EQT005. Each  
failure to maintain the required records is a violation of Specific Requirement No. 60 of  
Title V Permit No. 0560-00058-V8, LAC 33:III.535, 40 CFR 63.6655, which language  
has been adopted as a Louisiana regulation in LAC 33:III.5122, LAC 33:III.501.C.4,  
and La. R.S. 30:2057(A)(2). In correspondence dated December 21, 2018, the  
Respondent stated oil analyses were performed immediately upon discovery and the  
analytical results verified the oil in each of the four units were within manufacture and
regulatory specifications. Additionally, the Respondent stated a reoccurring annual work order was created in the internal work order system, which notifies the facility operators of the tasks to be completed.

On or about September 5, 2018, an inspection of **HENRY COMPRESSOR STATION** (Agency Interest No. 24332, the facility), a natural gas transmission facility, owned and/or operated by the Respondent, was performed to determine the degree of compliance with the Louisiana Environmental Quality Act (the Act) and the Air Quality Regulations. The facility is located at 5625 Aristide Road, Henry, Vermillion Parish, Louisiana. The facility previously operated under the Title V Air Permit No. 2940-00025-V3 issued on February 3, 2014. The facility currently operates under Title V Air Permit No. 2940-00025-V4 issued on May 3, 2019.

While the investigation by the Department is not yet complete, the following violations were noted during the course of the inspection and subsequent file review performed on October 3, 2019:

A. The Respondent failed to keep records of oil and filter changes on Emergency Generator EP-3 (EQT0003) from November 1, 2014 until September 15, 2016. Specifically, the Respondent failed to maintain records of oil and filter changes every 500 hours of operation or annually, whichever comes first. Each failure to maintain the required records is a violation of Specific Requirement No. 12 of Title V Permit No. 2940-00025-V3, 40 CFR 63.6655, which language has been adopted as a Louisiana regulation in LAC 33:III.5122, LAC 33:III.501.C.4, and La. R.S. 30:2057(A)(2). In the 2016 1st Semiannual Report dated September 26, 2017, the Respondent stated oil and filter changes were conducted on September 15, 2016. Additionally, the Respondent created oil change inspection forms and communicated to operations to complete the form, keep records, and to input into the automated work order system.

B. The Respondent failed to keep records on inspections of spark plugs on Emergency Generator EP-3 (EQT0003) from November 1, 2014 until September 15, 2016. Specifically, the Respondent failed to maintain records of inspections on spark plugs every 1,000 hours of operation or annually, whichever comes first. Each failure to maintain the required records is a violation of Specific Requirement No. 12 of Title V Permit No. 2940-00025-V3, 40 CFR 63.6655, which language has been adopted as a Louisiana regulation in LAC 33:III.5122, LAC 33:III.501.C.4, and La. R.S. 30:2057(A)(2). In the 2016 Title V 1st Semiannual Report dated September 26, 2017, the Respondent stated spark plugs were inspected on September 15, 2016.

On or about September 6, 2018, an inspection of **NAPOLEONVILLE STORAGE FACILITY** (Agency Interest No. 27281, the facility), a natural gas transmission facility, owned and/or operated by the Respondent, was performed to determine the degree of compliance with the Louisiana Environmental Quality Act (the Act) and the Air Quality Regulations. The facility is located at 1282 Highway LA-70 South in Belle Rose, Assumption Parish, Louisiana. The facility previously operated under the Title V Air Permit No. 0200-00002-V7 issued on August 27, 2015, Title V Air Permit No. 0200-00002-V8 issued on December 5, 2016, and Title V Air Permit No. 0200-00002-V9 issued on August 23, 2018. The facility currently operates under the Title V Air Permit No. 0200-00002-V10 issued on November 7, 2019.
While the investigation by the Department is not yet complete, the following violations were noted during the course of the inspection and subsequent file review performed on October 3, 2019:

A. The Respondent failed to control air emissions by failing to connect the process vent to a control device. Specifically, the Respondent reported the following in the 2017 1st Half Periodic Report dated September 27, 2017 and 2017 2nd Half Periodic Report dated February 28, 2018:

<td>Vapor recovery system was offline due to a malfunction of the vapor recovery blower. Sampling intervals were increased to aid in determining the need to operate the glycol dehydrator based on moisture content during the outage.</td>
<td>In electronic correspondence dated October 21, 2019, the Respondent stated that the facility had issues with seals leaking and bearings becoming seized on the blower system. The pitless block bearings seized up on the blower. The facility ordered new bearings and installed them once they were received from the manufacturer.</td>

<td>In electronic correspondence dated October 21, 2019, the Respondent stated that the facility had issues with seals leaking and bearings becoming seized on the blower system. The first downtime event occurred when operations discovered a seal leaking. A new seal was ordered and replaced. On a separate occasion, bearings failed and seized on the shaft of the blower. As a result, operations had to send the shaft to a machine shop to remove and seize the bearings and re-machine the shaft.</td>

Each failure to control emissions is a violation of Specific Requirement 26 of Title V Permit No. 0200-000002-V8, LAC 33:III.501.C.4, 40 CFR 63.1275(b)(1)(i), which language has been adopted as a Louisiana regulation in LAC 33:III.5122, La. R.S. 30:2057(A)(1) and 30:2057(A)(2). Additionally, in electronic correspondence dated October 21, 2019, the Respondent stated that operations regularly inspects the vent system and repairs the system each time it malfunctions. The Respondent reinstalled a new demister pad, which aided in collecting all water vapor instead of it encountering the blower and purchased a new stainless steel blower and housing, which will be installed once it is received. In response to Warning Letter, Enforcement Tracking No. AE-1.19-00338, dated June 7, 2018, the Respondent stated that the annual uncontrolled volatile organic compounds (VOC) emissions were conservatively calculated to be 743.9 pounds, which did not exceed the permitted emissions limitations of 4.07 tons per year for 7.7 MMBTu/hr Reboiler No. 1 Stack 1 (EQ10007) and 7.7 MMBTu/hr Reboiler No. 1 Stack 2 (EQ10008) in the Glycol Regeneration unit.

C. The Respondent failed to submit the following 40 CFR 63 Subpart HHHH Periodic reports 60 calendar days after the end of the applicable reporting period:

<table>

Each failure to timely submit periodic reports is a violation of Specific Requirement No. 40 of Title V Permit No. 0200-00002-V8, LAC 33:III.501.C.4, 40 CFR 63.1285(e), which language has been adopted as a Louisiana regulation in LAC 33:III.5122, and La. R.S. 30.2057(A)(2).

D. The Respondent failed to submit stack test results within 60 days of completing a performance test. Specifically, the Respondent submitted the stack tests results for a performance test conducted on June 30, 2016 untimely for Compressor Engines EQT0001, EQT0002, EQT0003, and EQT0004. The results were due August 29, 2016 but were not submitted until September 8, 2016. The failure to timely submit stack tests results is a violation of Specific Requirement No. 59 of Title V Permit No. 0200-00002-V7, LAC 33:III.501.C.4, and La. R.S. 30.2057(A)(2). In correspondence dated June 7, 2019, the Respondent stated an electronic compliance tracking system has been instituted to avoid missing future submittal deadlines.
E. The Respondent reported the following recordkeeping violations:

<td>Change oil and filter every 500 hours of operation or annually, whichever comes first</td>
<td>In correspondence dated June 7, 2019, the Respondent stated that EQT0006 operated 4.5 hours in 2014 and 0 hours in 2015. Upon discovery, the deficiencies were addressed on August 3, 2016. Additionally, the Respondent created an oil change and inspection form and generated a reoccurring work order in their internal work order system to prevent reoccurrences.</td>

Each failure to maintain the required records for EQT0006 is a violation of Title V Permit No. 0200-00002-V7, 40 CFR 63.6655, which language has been adopted as a Louisiana regulation in LAC 33:III.5122, LAC 33:III.501.C.4, and La. R.S. 30:2057(A)(2).

F. In the Amended 2018 Title V 2nd Semiannual Report dated November 12, 2019, the Respondent reported the failure to record daily inspections for visible emissions on Flare 01-Flare (EQT0015) from August 23, 2015 to September 6, 2018. This is a violation of Specific Requirement No. 92 of Title V Permit No. 0200-00002-V9, LAC 33:III.501.C.4, and La. R.S. 30:2057(A)(2). In correspondence dated June 7, 2019, the Respondent stated a flare log has been implemented to record daily inspections of visible emissions.

Pursuant to La. R.S. 30:2050.3(B), you are hereby notified that the issuance of a penalty assessment is being considered for the violation(s) described herein. Written comments may be filed regarding the violation(s) and the contemplated penalty. If you elect to submit comments, it is requested that they be submitted within ten (10) days of receipt of this notice.

Prior to the issuance of any additional appropriate enforcement action, you may request a meeting with the Department to present any mitigating circumstances concerning the violation(s). If you would like to have such a meeting, please contact Madison Kirkland at (225) 219-3165 or at Madison.Kirkland@la.gov within ten (10) days of receipt of this NOTICE OF POTENTIAL PENALTY.

The Department is required by La. R.S. 30:2025(E)(3)(a) to consider the gross revenues of the Respondent and the monetary benefits of noncompliance in order to determine whether a penalty will be assessed and the amount of such penalty. Please forward the Respondent’s most current annual gross revenue statement along with a statement of the monetary benefits of noncompliance for the cited violations to the above named contact person within ten (10) days of receipt of this NOTICE OF POTENTIAL PENALTY. Include with your statement of monetary benefits the method(s) you utilized.
to arrive at the sum. If you assert that no monetary benefits have been gained, you are to fully justify this statement. If the Respondent chooses not to submit the requested most current annual gross revenues statement within ten (10) days, it will be viewed by the Department as an admission that the Respondent has the ability to pay the statutory maximum penalty as outlined in La. R.S. 30:2025.

For each violation described herein, the Department reserves the right to seek civil penalties and the right to seek compliance with its rules and regulations in any manner allowed by law, and nothing herein shall be construed to preclude the right to seek such penalties and compliance.

The Department assesses civil penalties based on LAC 33:1.Subpart1.Chapter 7. To expedite closure of this NOTICE OF POTENTIAL PENALTY, the Respondent may offer a settlement amount to resolve any claim for civil penalties for the violation(s) described herein. The Respondent may offer a settlement amount, but the Department is under no obligation to enter into settlement negotiations. The decision to proceed with a settlement is at the discretion of the Department. The settlement offer amount may be entered on the attached "NOTICE OF POTENTIAL PENALTY REQUEST TO SETTLE" form. The Respondent must include a justification of the offer. DO NOT submit payment of the offer amount with the form. The Department will review the settlement offer and notify the Respondent as to whether the offer is or is not accepted.

To reduce document handling, please refer to the Enforcement Tracking Number and Agency Interest Number on the front of this document on all correspondence in response to this action.

Sincerely,

Lourdes Iturralde
