PROCEEDINGS UNDER THE LOUISIANA  
ENVIRONMENTAL QUALITY ACT,  

CONSOLIDATED  
COMPLIANCE ORDER & NOTICE OF POTENTIAL PENALTY  

The following CONSOLIDATED COMPLIANCE ORDER & NOTICE OF POTENTIAL PENALTY is issued to EPIC PIPING, LLC (RESPONDENT) by the Louisiana Department of Environmental Quality (the Department), under the authority granted by the Louisiana Environmental Quality Act (the Act), La. R.S. 30:2001, et seq., and particularly by La. R.S. 30:2025(C), 30:2050.2 and 30:2050.3(B).  

FINDINGS OF FACT  

I.  
The Respondent owns and/or operates Epic Piping, LLC, located at 28445 South Frost Road in Livingston, Livingston Parish, Louisiana. The facility fabricates piping, pipe spools, and other piping components for a variety of industrial applications. Operational activities include welding, metal cutting, abrasive blasting, and surface coating. The Respondent notified the Department as a Large Quantity Generator of hazardous waste on a Hazardous Waste Notification (HW-1) Form signed on or about February 13, 2017, and operates under the EPA identification number LAR000091777.  

II.  
On or about September 18, 2018, the Department conducted an inspection at the above referenced facility to determine the degree of compliance with the Act and the supporting Regulations.
While the investigation by the Department is not yet complete, the following violations were noted during the course of the inspection:

A. The Respondent failed to label containers storing hazardous waste with the date upon which each period of accumulation began, in violation of LAC 33:V.1109.E.1.e. Specifically, at the time of the inspection, the Department observed one (1) fifty-five (55) gallon drum of hazardous waste (D001, D005, D006, D007, D008, D035, F003, and F005) in the facility’s paint shop and five (5) fifty-five (55) gallon drums of hazardous waste (D001, D005, D006, D007, D008, D035, F003, and F005) outside the south entrance of the facility’s paint shop in the facility’s solvent recovery unit. It was determined that all the drums contain spent solvent and unused paint waste (D001, D005, D006, D007, D008, D035, F003, and F005). The drum inside the paint shop and one (1) of the drums in the solvent recovery unit were not marked with the accumulation start date.

B. The Respondent failed to label containers storing hazardous waste with the words “Hazardous Waste,” in violation of LAC 33:V.1109.E.1.d. Specifically, the drum containing hazardous waste (D001, D005, D006, D007, D008, D035, F003, and F005) located in the paint shop and five (5) of the drums containing hazardous waste (D001, D005, D006, D007, D008, D035, F003, and F005) located in the solvent recovery unit were not labelled with the words “Hazardous Waste.”

C. The Respondent failed to keep containers holding hazardous waste closed at all times during storage, except when it is necessary to add or remove waste, in accordance with LAC 33:V.2107.A, in violation of LAC 33:V.1109.E.1.a.i. Specifically, four (4) fifty-five (55) gallon drums of hazardous waste (D001, D005, D006, D007, D008, D035, F003, and F005) located in the solvent recovery unit were not closed and waste was not actively being added or removed at the time of the inspection. The lids on two (2) of the drums had a visible space between the drum lid and the top of the drum and all four (4) drums has no drum ring around the drum lids.

D. The Respondent failed to conduct weekly inspections of hazardous waste containers in accordance with LAC 33:V.2109.A, in violation of LAC 33:V.1109.E.1.a.i. Specifically, the facility could not provide weekly hazardous waste container inspection reports from approximately October 31, 2016, through March 3, 2017, and

E. The Respondent failed to keep a copy of the initial Land Disposal Restriction (LDR) Notification to the treatment, storage, or disposal (TSD) facility for the hazardous waste at the facility, in accordance with LAC 33:V.2245.B, in violation of LAC 33:V.1109.E.1.e. Specifically, at the time of the September 18, 2018 inspection, the Respondent was not able to provide a copy of the initial LDR Notification for the hazardous waste (D001, D005, D006, D007, D008, and D035) on manifest 017542999 JJK, signed by the generator on March 6, 2018.

F. The Respondent failed to include hazardous waste codes and whether the hazardous waste was subject to the LDRs on the initial LDR Notification, in accordance with LAC 33:V.2245.B, in violation of LAC 33:V.1109.E.1.e. Specifically, the initial LDR Notification for the hazardous waste on manifest 010245636 FLE, signed by the generator on October 31, 2016, did not include hazardous waste codes and whether the waste was subject to the LDRs.

G. The Respondent failed to keep a copy of each manifest signed by the designated TSD facility on site for three (3) years from the date the waste was accepted by the initial transporter, in accordance with LAC 33:V.1107.D.1, in violation of LAC 33:V.1111.A.1. Specifically, at the time of the September 18, 2018 inspection, the facility was not able to provide a signed copy from the designated TSD facility for hazardous waste manifest 011586742 FLE, signed by the generator on December 11, 2017. In a response to the inspection on or about September 24, 2018, the facility provided a copy of this manifest with a signature from the designated facility to the Department.

H. The Respondent failed to clearly label containers used to store used oil with the words "Used Oil," in violation of LAC 33:V.4013.D.1. Specifically, at the time of the September 18, 2018 inspection, two (2) fifty-five (55) gallon drums containing used oil were not labelled with the words "Used Oil." On or about September 24, 2018, a representative of the Respondent labelled the drums "Used Oil" and provided a photograph of the labeled drums to the Department.
1. The Respondent failed to describe, in the hazardous waste contingency plan, arrangements agreed to by local police departments, fire departments, hospitals, contractors, and state and local emergency response teams to coordinate emergency services, in accordance with LAC 33:V.1513.B.3, in violation of LAC 33:V.1109.E.1.e. In a response received on or about October 3, 2018, the Respondent provided copies of letters to a local fire department, police department, hospital, and the Livingston Parish Office of Homeland Security and Emergency Preparedness (LOHSEP) regarding the facility’s hazardous waste contingency plan.

J. The Respondent failed to submit copies of the hazardous waste contingency plan to all local police departments, fire departments, hospitals, contractors, and state and local emergency response teams that may be called upon to provide emergency services, in accordance with LAC 33:V.1513.C.2, in violation of LAC 33:V.1109.E.1.e. In a response received on or about October 3, 2018, the Respondent provided copies of letters to a local fire department, police department, hospital, and the Livingston Parish Office of Homeland Security and Emergency Preparedness (LOHSEP) regarding the facility’s hazardous waste contingency plan.

K. The Respondent failed to clean up spilled hazardous waste in a timely manner, in violation of LAC 33:V.1121.A. Specifically, at the time of the September 18, 2018 inspection, dried paint waste was observed on the grating in the facility’s solvent recovery unit near the five (5) fifty-five (55) gallon drums of paint related hazardous waste (D001, D005, D006, D007, D008, D035, F003, and F005). At the time of the inspection, the facility representatives were made aware of this spill of hazardous waste. The hazardous waste is a liquid when generated, but the spilled hazardous waste was dry, indicating the spill was not recent.
