Dear Sir:

On or about October 19, 2010, and October 21, 2010, an inspection was conducted at the Respondent’s facility, owned and/or operated by KENALL, INC. (RESPONDENT). The inspection was performed to determine the degree of compliance with the Louisiana Environmental Quality Act (the Act) and the Radiation Protection Regulations. The facility is located at 5120 Storey Street in Harahan, Jefferson Parish, Louisiana.

While the investigation by the Louisiana Department of Environmental Quality (the Department) is not yet complete, the following violation(s) were noted:

A. During the course of the inspection, it was noted that the Respondent failed to notify the Department prior to moving the radioactive source to a new location. This instance is a violation of LAC 33:XV.320.A.2 and Radioactive Material License LA-12302-L01, Condition #1A. On November 9, 2010, an amended license was issued to show the change in storage location. This violation has been corrected.

C. During the course of the inspection, it was noted that the licensee did not have receipt and/or transfer records for the nuclear gauges at the time of the inspection. This is a violation of LAC 33:XV.104.A. During a second visit conducted on October 21, 2010, Mr. Chikyala provided the transfer records from the main office in Texas for the two gauges. This violation has been corrected.

D. During the course of the inspection, it was noted that the Humboldt nuclear gauge, serial number 4575, was leak tested on July 7, 2009, March 4, 2010, and October 8, 2010, exceeding its six month leak test interval. This is a violation of LAC 33:XV.426.A.2.

E. During the course of the inspection, it was noted that an inventory of all sealed sources was not conducted at six month intervals as required by Kenall, Inc.'s Operating and Emergency Procedure. This is a violation of LAC 33:XV.320.A.2 and Kenall, Inc.'s Operating and Emergency Procedures, Section 7.A.

F. During the course of the inspection, it was noted that an inspection of all gauges was not conducted at six month intervals as required by Kenall, Inc.'s Operating and Emergency Procedures. This is a violation of LAC 33:XV.320.A.2 and Kenall, Inc.'s Operating and Emergency Procedures, Section 8.C.

G. During the course of the inspection, it was noted that the door to the storage room was not posted with “Caution Radioactive Material” at the time of the inspection. This is a violation of LAC 33:XV.451.E. At the time of the return visit on October 21, 2010, the storage room was properly posted correcting this violation.

H. During the course of the inspection, it was noted that the source holder/plungers were not locked in the “off” position. This is a violation of LAC 33:XV.320.A.2 and Radioactive Material License LA-12302-L01, Condition

#5.A. By the end of the inspection, Mr. Chikyala had locked both source holders correcting the violation.

I. During the course of the inspection, it was noted that the nuclear gauges were not labeled with the licensee’s name, address, and telephone number. This is a violation of LAC 33:XV.320.A.2 and Kenall, Inc.’s Operating and Emergency Procedures, Section 6.B. By the end of the inspection, Mr. Chikyala had added the licensee’s name, address, and telephone number to the nuclear gauges correcting the violation.

Pursuant to La. R.S. 30:2050.3(B), you are hereby notified that the issuance of a penalty assessment is being considered for the violation(s) described herein. Written comments may be filed regarding the violation(s) and the contemplated penalty. If you elect to submit comments, it is requested that they be submitted within ten (10) days of receipt of this notice.

Prior to the issuance of any additional appropriate enforcement action, you may request a meeting with the Department to present any mitigating circumstances concerning the violation(s). PROCEEDINGS UNDER THE LOUISIANA
ENVIRONMENTAL QUALITY ACT,

CONSOLIDATED
COMPLIANCE ORDER & NOTICE OF POTENTIAL PENALTY

The following CONSOLIDATED COMPLIANCE ORDER & NOTICE OF POTENTIAL PENALTY is issued to KENALL, INC. (RESPONDENT) by the Louisiana Department of Environmental Quality (the Department), under the authority granted by the Louisiana Environmental Quality Act (the Act), La. R.S. 30:2001, et seq., and particularly by La. R.S. 30:2025(C), 30:2050.2 and 30:2050.3(B).

FINDINGS OF FACT

I.
The Respondent owns and/or operates a portable nuclear moisture and density gauge facility, located at 5120 Storey Street in Harahan, Jefferson Parish, Louisiana. The Respondent operates under Radioactive Materials License (RAM) LA-12302-L01.

II.
Inspections conducted by the Department on or about October 19, 2010, and October 21, 2010, resulted in the issuance of NOTICE OF POTENTIAL PENALTY RE-PP-11-01320 to the Respondent on or about March 26, 2012. The enforcement action was received by the Respondent on or about March 28, 2012.
III.

On or about October 21, 2014 and October 23, 2014, the Department conducted inspections of the Respondent’s facility to determine the degree of compliance with the Radiation Protection Regulations and the Act. While the Department’s investigation is not yet complete, the following violations were noted at the time of the inspection:

A. The Respondent failed to perform and maintain records of an annual inventory of all sealed sources, in violation of LAC 33:XV.104.B. Specifically, the Respondent did not have a copy of the inventory, which is conducted twice annually, available for review at the time of the inspection. The Respondent obtained the inventory records from the corporate office and presented them at the follow-up inspection on or about October 23, 2014.

B. The Respondent failed to notify the Office of Environmental Compliance before making any changes that would render the information contained in the application for license no longer accurate, in violation of LAC 33:XV.320.A.2, and Radioactive Material License LA-12302-L01. Specifically, the Respondent currently has three (3) Humboldt Scientific soil moisture/density gauges. Each gauge houses ten (10) mCi of Cs-137 and 40 mCi of Am:Be-241. RAM License LA-12302-L01 states that the maximum amount of sources of each type allowed is two (2). RAM License LA-12302-L01 reissued on or about May 5, 2011, increased the maximum allowable sources to five (5) each of Cs-137 and Am:Be-241. This violation has been corrected.

C. The Respondent failed to conduct leak testing within a six (6) month interval for the Humboldt Scientific soil moisture/density gauge, in violation of LAC 33:XV.426.A.2. Specifically, the Respondent states in the Operation and Emergency Procedures that leak test are to be conducted annually; however, the Respondent did not have documentation from the manufacturer to support the twelve (12) month authorization. Humboldt Scientific 5001EZ user guide Section 5.4 does not approve an extended leak test frequency. Leak tests were conducted on September 28, 2011, September 17, 2012, and September 11, 2014.

D. The Respondent failed to maintain records showing the results of surveys and calibrations for three (3) years as required by LAC 33:XV.430 and 455.B, in
violation of LAC 33:XV.472.A. Specifically, the Respondent did not have the required records available for review at the time of the October 21, 2014 inspection. The records were obtained from the Respondent’s corporate office and provided for review during the follow-up inspection on October 23, 2014.

E. The Respondent failed to retain the required forms or records of individual monitoring results until the Department terminates each pertinent license or registration requiring the record, in violation of LAC 33:XV.476.E. Specifically, the Respondent did not have employee dosimetry records available for review at the time of the October 21, 2014 inspection. The records were obtained and reviewed for the period of July 2012 through September 2014 during the October 23, 2014 follow-up inspection.

F. The Respondent failed to post current copies of the regulations, in violation of LAC 33:XV.1011.A.1. Specifically, the Respondent did not have a current copy of the regulations available. The Respondent obtained access to the regulations by the conclusion of the inspection.

G. The Respondent failed to post current copies of the Form DRC-3, “Notice to Employees,” in violation of LAC 33:XV.1011.C. Specifically, the Respondent did not have a DRC-3 “Notice to Employees” posted at the time of the initial inspection. The Respondent obtained a DRC-3 and posted it by the conclusion of the inspection.

COMPLIANCE ORDER

Based on the foregoing, the Respondent is hereby ordered:

I.

To take, immediately upon receipt of this COMPLIANCE ORDER, any and all steps necessary to meet and maintain compliance with the Radiation Protection Regulations.

II.

To submit, within thirty (30) days after receipt of this COMPLIANCE ORDER, records of current leak tests for all Humboldt Scientific soli/moisture density gauges. The Respondent shall also institute procedures to ensure that leak testing of sealed sources of radiation is done at intervals not to exceed once every six (6) months in accordance with LAC 33:XV.426.
III.

To submit to the Enforcement Division, within thirty (30) days after receipt of this COMPLIANCE ORDER, a written report that includes a detailed description of the circumstances surrounding the cited violation(s) and actions taken or to be taken to achieve compliance with the Order Portion of this COMPLIANCE ORDER. This report and all other reports or information required to be submitted to the Enforcement Division by this COMPLIANCE ORDER shall be submitted to:

49:950, et seq.), and the Department's Rules of Procedure. The Department may amend or supplement this **COMPLIANCE ORDER** prior to the hearing, after providing sufficient notice and an opportunity for the preparation of a defense for the hearing.

IV.

This **COMPLIANCE ORDER** shall become a final enforcement action unless the request for hearing is timely filed. Failure to timely request a hearing constitutes a waiver of the Respondent's right to a hearing on a disputed issue of material fact or of law under Section 2050.4 of the Act for the violation(s) described herein.

V.

The Respondent's failure to request a hearing or to file an appeal or the Respondent's withdrawal of a request for hearing on this **COMPLIANCE ORDER** shall not preclude the Respondent from contesting the findings of facts in any subsequent penalty action addressing the same violation(s), although the Respondent is estopped from objecting to this **COMPLIANCE ORDER** becoming a permanent part of its compliance history.

VI.

Civil penalties of not more than twenty-seven thousand five hundred dollars ($27,500) for each day of violation for the violation(s) described herein may be assessed. For violations which occurred on August 15, 2004, or after, civil penalties of not more than thirty-two thousand five hundred dollars ($32,500) may be assessed for each day of violation. The Respondent's failure or refusal to comply with this **COMPLIANCE ORDER** and the provisions herein will subject the Respondent to possible enforcement procedures under La. R.S. 30:2025, which could result in the assessment of a civil penalty in an amount of not more than fifty thousand dollars ($50,000) for each day of continued violation or noncompliance.

VII.

For each violation described herein, the Department reserves the right to seek civil penalties in any manner allowed by law, and nothing herein shall be construed to preclude the right to seek such penalties.
