PROCEEDINGS UNDER THE LOUISIANA ENVIRONMENTAL QUALITY ACT

LA. R.S. 30:2001, <u>ET SEQ.</u>

SETTLEMENT AGREEMENT

The following Settlement Agreement is hereby agreed to between Cora Texas Manufacturing Company, L.L.C. ("Respondent") and the Department of Environmental Quality ("DEQ" or "the Department"), under authority granted by the Louisiana Environmental Quality Act, La. R.S. 30:2001, et seq. ("the Act").

Ι

Respondent is a limited liability company that owns and/or operates a raw cane sugar factory located in White Castle, Iberville Parish, Louisiana ("the Facility").

II

On May 7, 2024, the Department issued to Respondent a Consolidated Compliance Order & Notice of Potential Penalty, Enforcement Tracking No. WE-CN-23-00811 (Exhibit 1).

III

In response to the Consolidated Compliance Order & Notice of Potential Penalty, Respondent made a timely request for a hearing.

Respondent denies it committed any violations or that it is liable for any fines, forfeitures and/or penalties.

V

Nonetheless, Respondent, without making any admission of liability under state or federal statute or regulation, agrees to pay, and the Department agrees to accept, a payment in the amount of FIVE THOUSAND AND NO/100 DOLLARS (\$5,000.00), of which Two Thousand Five Hundred Fifty-Eight and 20/100 Dollars (\$2,558.20) represents the Department's enforcement costs, in settlement of the claims set forth in this Settlement Agreement. The total amount of money expended by Respondent on cash payments to the Department as described above, shall be considered a civil penalty for tax purposes, as required by La. R.S. 30:2050.7(E)(1).

VI

Respondent further agrees that the Department may consider the inspection report(s), permit record(s), the Consolidated Compliance Order & Notice of Potential Penalty and this Settlement Agreement for the purpose of determining compliance history in connection with any future enforcement or permitting action by the Department against Respondent, and in any such action Respondent shall be estopped from objecting to the above-referenced documents being considered as proving the violations alleged herein for the sole purpose of determining Respondent's compliance history.

VII

This Settlement Agreement shall be considered a final order of the Secretary for all purposes, including, but not limited to, enforcement under La. R.S. 30:2025(G)(2), and Respondent hereby waives any right to administrative or judicial review of the terms of this agreement, except such

review as may be required for interpretation of this Settlement Agreement in any action by the Department to enforce this Settlement Agreement.

VIII

This Settlement Agreement is being made in the interest of settling the state's claims and avoiding for both parties the expense and effort involved in litigation or an adjudicatory hearing. In agreeing to the compromise and Settlement Agreement, the Department considered the factors for issuing civil penalties set forth in La. R.S. 30:2025(E) of the Act.

ΙX

As required by law, the Department has submitted this Settlement Agreement to the Louisiana Attorney General for approval or rejection. The Attorney General's concurrence is appended to this Settlement Agreement.

X

The Respondent has caused a public notice advertisement to be placed in the official journal of the parish governing authority in Iberville Parish, Louisiana. The advertisement, in form and wording approved by the Department, announced the availability of this Settlement Agreement for public view and comment and the opportunity for a public hearing. Respondent has submitted an original proof-of-publication affidavit and an original public notice to the Department and, as of the date this Settlement Agreement is executed on behalf of the Department, more than forty-five (45) days have elapsed since publication of the notice.

ΧI

Payment is to be made within thirty (30) days from notice of the Secretary's signature. If payment is not received within that time, this Settlement Agreement is voidable at the option of the Department. The Respondent shall provide its tax identification number when submitting payment.

Payments are to be made by check, payable to the Department of Environmental Quality, and mailed or delivered to the attention of Accountant Administrator, Financial Services Division, Department of Environmental Quality, Post Office Box 4303, Baton Rouge, Louisiana, 70821-4303. Each payment shall be accompanied by a completed Settlement Payment Form attached hereto.

XII

In consideration of the above, any claims for penalties are hereby compromised and settled in accordance with the terms of this Settlement Agreement.

XIII

Each undersigned representative of the parties certifies that he or she is fully authorized to execute this Settlement Agreement on behalf of his or her respective party, and to legally bind such party to its terms and conditions.

This CONSOLIDATED COMPLIANCE ORDER & NOTICE OF POTENTIAL PENALTY IS ISSUED by the Louisiana Department of Environmental Quality (the Department), under the authority granted by the Louisiana Environmental Quality Act (the Act), La. R.S. 30:2001, et se]., and perticularly by (a. R.S. 90:2025(C), 30:2050.2 and 30:2050.3(B).

An authorized representative of the Department inspected the abovelnentioned facility or conducted a file review of the facility to determine the degree of compliance with regulations promulgated in the Louisiana Administrative Code, Title 33. The State regulatory citations for the violation(s) identified during the inspection and/or file review are indicated below.

The Respondent owns and/or operates a raw cane sugar factory located at 32505 La. Hwy 1, White Castle, Ibenylle Parish, Louislane. The Respondent was issued Louislane Pollutent Discharge Elimination System (LPDES) Permit (A0001295 on July 20, 2017, with an effective date of August 1, 2017, and an expiration date of July 31, 2022. The Respondent submitted a renewal application on or about February 1, 2022, and LPDES Permit LACCO1295 was administratively continued. On or about May 9, 2023, the Respondent notified the Department for the need to add three (3) new outfalls (Outfalls 003, 004, & 005) to the previously submitted renewal application. These new outfalls will be for process wastewater discharges identical to Outfall 002, but from different locations from the stabilization pond. On or about December 4, 2023, the Department requested additional information to complete the administrative technal review. The Department received the additional information on or about February 14 and 23, 2024. Under the terms and conditions of LPDES Permit LA0001295, the Respondent is permitted to discharge barometric cooling water and condensate (Outfall 001) into the Mississippi River; and process area wastewaters, process area stormwater runoff, yehicle/equipment washwater, non-process area stormwater runoff, and previously monitored treated sanitary wastewater (Outfall 002) Into Bayou Sigur via local drainage, all waters of the state.

1.	Date of Violation	Description of Violation		
i i i i i i i i i i i i i i i i i i i	inspection(s) July 17, 2023	The Respondent caused and/or allowed the discharge of wastewater from a location not authorized by the permit. Specifically, during the inspection the Department observed an unauthorized disharge located approximately 10 to 15 feet from Outfall 002, which was also discharging at the time. The observed unauthorized discharge of wastewater from the stabilization pond at this location was into a ditch, thence into Bayou Sigur via a pipe, which was installed approximately two (2) to three (3) months prior to the inspection according to the representative of the Respondent (representative). During the inspection, the representative stated that it was believed that the additional pipe was authorized via the current IPDES permit due to its proximity to Outfall 002. A response to Warning Letter WE-L-23-00811 dated February 9, 2024, stated that this unauthorized discharge was sampled weekly and used total flow measurements for loading calculation that were within permit limitations for Outfall 002. However, IPDES Permit (A0001295 does not authorize any discharge from this specific location, and does not consider this location's proximity to Outfall 002 as an equivalent to Outfall 002. (La. R.S. 30:2076(A[1](a) and IAC 33:IX.501.D) Per responses dated February 9, 2024, and February 28, 2024, the Respondent notified the Department that the Respondent understands that discharges from this location are not authorized by LPDES Permit LA0001295, and has permanently discontinued discharges from this location as of August 9, 2023. Furthermore, the Respondent plans to remove the pipe and culvert structure as soon as pond levels allow, which is estimated to be done before grinding season starts in September 2024.		
m,	:	The Respondent caused and/or allowed the discharge of wastewater from a location not authorized by the permit. Specifically, during the inspection the Department observed an unauthorized disharge (ocated near the east side of Myles Road Bridge. The observed unauthorized discharge of wastewater from the stabilization pond at this location was directly into Bayou Sigur via pipe. A response to Warning Letter WE-L-23-00812 dated February 9, 2024, stated that this location was considered part of discharges, for which the Respondent notified the Department on or about June 30, 2023, of the need for a planned bypass discharge of Outfall 002 in order to repiace a pipe running between the main stabilization pond and the overflow pond. The discharge from this planned bypass was stated to consist of treated wastewater that had been stabilizing in the pond for as long or longer than what would otherwise be discharged from Outfall 002, and would lest for two (2) to three (3) weeks, starting on July 10, 2023. However, the location of the unauthorized discharge observed to be located near the east side of Myles Road Bridge did not correlate with the information provided in the bypass notification. A review of the inspection report and the bypass notification revealed that the location of this unauthorized discharge and the location specified in the planned bypass notification, which is noted in the Findings of Fact, Paragraph IV as the point where the pond levee was excavated are not the same. (PDES Permit LA0001295 does not authorize any discharge from this specific location, and the Department does not consider this location's unathorized discharge as an approved bypass. (La. R.S. 30:2076(A)(1)(a) and LAC 33:IX.501.D) Per responses dated February 9, 2024, and February 28, 2024, the Respondent notified the Department that discharges from this location have hear disconsibility.		

Respondent notified the Department that discharges from this location have been discontinued as of August 9, 2023, but that this location is currently in the process of obtaining authorization under LPDES Permit LA0001295 as Outfall 005 and plans to continue discharges from Outfall 005 once authorization is issued.

February 9, 2024, stated that this location was considered part of discharges associated with the proxime medicined anothication in Findings of Face, Paragraph II. The location of the executed portion of the I was initially estimated to be 100 feet from the pipe alocated in the same area as noted above, but was initially estimated to be 100 feet from the pipe alocated in the same area as noted above, but was reported to be 200 feet from the pipe after measurement by feelily representatives. The location of the excavation to the excavation of th	- 1	Inspection(s) July 17, 2023	The Respondent caused and/or allowed the discharge of wastewater from a location not authorized by the permit. Specifically, during the inspection the Department observed an unauthorized disharge located on the east side of Bayou Sigur near Myles Road Bridge. The observed unauthorized discharge of treated	
Inspection(d) & File Reniew July 17, 2023 March 5, 2024 March 6, 2024 March 7, 2024 March 6, 2024 March 7,	IV.		breach or excavation of the overflow pond's levee. A response to Warning Letter WE-L-23-00811 dated February 9, 2024, stated that this location was considered part of discharges associated with the previously mentioned notification in Findings of Fact, Paragraph III. The location of the excavated portion of the levee was initially estimated to be 100 feet from the pipe located in the same area as noted above, but was then reported to be 20 feet from the pipe after measurement by facility representatives. The location of the levee excavation site was in the general area decribed in the Respondent's bypass notification. However, according to the representative during the inspection the levee was excavated to drain more wastewater faster in order to get ready for the grinding season. LPDES Permit LAD001295 does not authorize any discharge from this specific location, and the Department does not consider this location's unathorized discharge as an approved bypass, (La. R.S. 30:2076(A)(1)(a) and LAC 33:IX,501.D) Per responses dated February 9, 2024, and February 28, 2024, the Respondent notified the Department that discharges from this location have been	
To take, immediately upon receipt of this COMPILANCE ORDER, any and all steps necessary to meet and maintain compil with the Water Quality Regulations. This shall include, but not be limited to; correcting all of the violations described in "Findings of Fact" portion. To submit to the Enforcement Division, within thirty (30) days after receipt of this COMPILANCE ORDER, a written report includes a detailed description of the circumstances surrounding the cited violation(s) and actions taken or to be taken to act compilarace with the "Circle" portion of this COMPILANCE ORDER. The written report shall also include a status update for removal of the pipe in the Findings of Fact, Paragraph II. This report and all other reports or information required to be submit to the Enforcement Division by this COMPILANCE ORDER shall be submitted to the Department at the address specified in document. The Respondent has a right to an adjudicatory hearing on a disputed issue of material fact or of law arising from this COMPILANCE ORDER. This right may be exercised by filing a written request with the Secretary no later than thirty (30) days after receipt of COMPILANCE ORDER. The request for an adjudicatory hearing shall specify the provisions of the COMPILANCE ORDER on which the hearing is requested with the secretary of the Compilance or an adjudicatory hearing shall specify the provisions of the COMPILANCE ORDER on which the hearing is requested Number, which are located in the upper left-hand corner of the first page of this document and should be directed to address specified in this document. Upon the Respondent's timely filing a request for a hearing, a hearing on the disputed issue of material fact or of law regarding COMPILANCE ORDER may be scheduled by the Secretary of the Department. The hearing shall be governed by the Act of the preparation of a defense for the hearing, a hearing on a disputed issue of material fact or of law is Section 2050.4 of the Act for the violation of the Respondent's right to a hearing on	V.	File Review July 17, 2023	The Respondent failed to notify the Department of any planned physical alterations or additions to the facility. Specifically, the Respondent failed to notify the Department regarding the installation of the pipe and culvert structure located approximately 10 to 15 feet from Outfall 002, that was observed to be discharging during the inspection. According to the representative, the pipe and culvert structure was installed approximately two (2) to three (3) months prior to the inspection. The representative state 1 that it was believed that the additional pipe was authorized via the current LPDES permit due to its proximity to Outfall 002; However, LPDES Permit LA0001295 does not authorize any discharge from this specific location, and does not consider this location's proximity to Outfall 002 as an equivalent to Outfall 002. The inspection as well as a review of the file revealed that the Respondent did not notify the Department about the additional discharge point located approximately 10 to 15 feet from Outfall 002. (LPDES Permit LA0001295 (Standard Conditions, Sections A.2 & D.1.a), La. R.S. 30:2076(A)(3), and LAC 33:IX.2701.L.1.a) Per responses dated February 9, 2024, and February 28, 2024, the Respondent notified the Department that discharges from this location have been permanently discontinued as of August 9, 2023, and plans to remove the pipe and culvert structure as soon as pond levels allow, which is estimated to be done before grinding season	
To take, immediately upon receipt of this COMPILANCE ORDER, any and all steps necessary to meet and maintain compil with the Water Quality Regulations. 	(225) 219-9723 within ten (10) days of receipt		

The Department is required by La. R.S. 30:2025(E)(3)(a) to consider the gross revenues of the Respondent and the monetary benefits of noncompliance to determine whether a penalty will be assessed and the amount of such penalty. Please forward the Respondent's most current annual gross revenue statement along with a statement of the monetary benefits of noncompliance for the cited violation(s) to the above named contact person within ten (10) days of receipt of this NOTICE OF POTENTIAL PENALTY. include with your statement of monetary benefits the method(s) you utilized to arrive at the sum. If you assert that no monetary benefits have been gained, you are to fully justify that statement. If the Respondent chooses not to submit the requested most current annual gross revenues Statement within ten (10) days, it will be viewed by the Department as an admission that the Respondent has the ability to pay the statutory maximum penalty as outlined in La. R.S. 30:2025.

The Department assesses civil penalties based on LAC 33:1. Subpart1. Chapter7. To expedite closure of this NOTICE OF POTENTIAL IV. PENALTY portion, the Respondent may offer a settlement amount to resolve any claim for civil penalties for the violation(s) described herein. The Respondent may offer a settlement amount, but the Department is under no obligation to enter into settlement negotiations. The decision to proceed with a settlement is at the discretion of the Department. The settlement offer amount may be entered on the attached "CONSOLIDATED COMPLIANCE ORDER AND NOTICE OF POTENTIAL PENALTY REQUEST TO CLOSE" form. The Respondent may submit the settlement offer within one hundred and eighty (180) days of receipt of this NOTICE OF POTENTIAL PENALTY portion but no later than ninety (90) days of achieving compliance with the COMPLIANCE ORDER portion. The Respondent must include a justification of the offer. DO NOT submit payment of the offer amount with the form. The Department will review the settlement offer and notify the Respondent as to whether the offer is or is not accepted.

This CONSOLIDATED COMPLIANCE ORDER & NOTICE OF POTENTIAL PENALTY is effective upon receipt.

WHAT IS A SETTLEMENT AGREEMENT?

Once the Department has determined that a penalty is warranted for a violation, the Assistant Secretary of the Department, with the concurrence of the Attorney General, may enter into a settlement agreement with the Respondent as a means to resolve the Department's claim for a penalty.

HOW DOES THE SETTLEMENT AGREEMENT PROCESS WORK?

To begin the settlement agreement process, the Department must receive a written settlement offer. Once this offer is submitted, it is sent for approval by the Assistant Secretary of the Office of Environmental Compliance. The formal Settlement Agreement is drafted and sent to the Attorney General's office where the Attorney General has a 90 day concurrence period. During this time, the Respondent is required to run a public notice in an official journal and/or newspaper of general circulation in each affected parish. After which, a 45 day public comment period is opened to allow the public to submit comments. Once the Department has received concurrence, the settlement agreement is signed by both parties. The Department then forwards a letter to the responsible party to establish a payment plan and/or beneficial environmental project (BEP).

WHAT SHOULD I INCLUDE IN A SETTLEMENT AGREEMENT?

The Department uses the penalty determination method defined in LAC 33:1.705 as a guideline to accepting settlement offers. The penalty matrix is used to determine a penalty range for each violation based on the two violation specific factors, the nature and gravity of the violation and the degree of risk/impact to human health and property.

	NATURE	AND GRAVITY	OF THE VIOLATI	ON
	AND SHOWS		Die Wari	
		\$32,500 to \$20,000	\$20,000 to \$15,000	\$15,000 to \$11,000
10 887 0 10 887 0 10 887 0		\$11,000 to \$8,000	\$8,000 to \$5,000	\$5,000 to \$3,000
		\$3,000 to \$1,500	\$1,500 to \$500	\$500 to \$100

Degree of Risk to Human Health or Property

Major: (actual measurable harm or substantial risk of harm) A violation of major impact to an environmental resource or a hazard characterized by high volume and/or frequent occurrence and/or high pollutant concentration.

Moderate: (potential for measurable detrimental impact) A violation of moderate impact and hazard may be one characterized by occasional occurrence and/or pollutant concentration that may be expected to have a detrimental effect under certain conditions

Minor: (no harm or risk of harm) A violation of minor impact are isolated single incidences and that cause no measurable detrimental effect or are administrative in nature.

Nature and Gravity of the Violation

Major: Violations of statutes, regulations, orders, permit limits, or permit requirements that result in negating the intent of the requirement to such an extent that little or no implementation of requirements occurred.

Moderate: Violations that result in substantially negating the Intent of the requirements, but some implementation of the requirements occurred. Minor: Violations that result in some deviation from the intent of the requirement, however, substantial implementation is demonstrated.

The range is adjusted using the following violator specific factors:

- 1. history of previous violations or repeated noncompliance;
- 2. gross revenues generated by the respondent;
- 3. degree of culpability, recalcitrance, defiance, or indifference to regulations or orders;
- 4, whether the Respondent has failed to mitigate or to make a reasonable attempt to mitigate the damages caused by the violation; and
- whether the violation and the surrounding circumstances were immediately reported to the department, and whether the violation was concealed or there was an attempt to conceal by the Respondent.

Given the previous information, the following formula is used to obtain a penalty amount.

Penalty Event Total = Penalty Event Minimum + (Adjustment Percentage x (Penalty Event Maximum - Penalty Event Minimum))

After this, the Department adds any monetary benefit of noncompliance to the penalty event. In the event that a monetary benefit is gained due to the delay of a cost that is ultimately paid, the Department adds the applicable judicial interest. Finally, the Department adds all response costs including, but not limited to, the cost of conducting inspections, and the staff time devoted to the preparation of reports and Issuing enforcement actions.

WHAT IS A BEP?

A BEP is a project that provides for environmental mitigation which the respondent is not otherwise legally required to perform, but which the defendant/respondent agrees to undertake as a component of the settlement agreement.

Project categories for BEPs include public health, pollution prevention, pollution reduction, environmental restoration and protection, assessments and audits, environmental compliance promotion, and emergency planning, preparedness and response. Other projects may be considered if the Department determines that these projects have environmental merit and is otherwise fully consistent with the intent of the BEP regulations.

WHAT HAPPENS IF MY OFFER IS REJECTED?

If an offer is rejected by the Assistant Secretary, the Legal Division will contact the responsible party, or anyone designated as an appropriate contact in the settlement offer, to discuss any discrepancies.
