PROCEEDINGS UNDER THE LOUISIANA * ENVIRONMENTAL QUALITY ACT *

LA. R.S. 30:2001, <u>ET SEQ.</u> *

SETTLEMENT AGREEMENT

The following Settlement Agreement is hereby agreed to between House of Raeford Farms of Louisiana, L.L.C. ("Respondent") and the Department of Environmental Quality ("DEQ" or "the Department"), under authority granted by the Louisiana Environmental Quality Act, La. R.S. 30:2001, et seq. ("the Act").

I

Respondent is a limited liability company that owns and/or operates a poultry processing facility located in Arcadia, Bienville Parish, Louisiana ("the Facility").

II

On August 2, 2022, the Department issued to Respondent an Amended Consolidated Compliance Order & Notice of Potential Penalty, Enforcement Tracking No. WE-CN-21-00152B (Exhibit 1).

Ш

Respondent denies it committed any violations or that it is liable for any fines, forfeitures and/or penalties.

Nonetheless, Respondent, without making any admission of liability under state or federal statute or regulation, agrees to pay, and the Department agrees to accept, a payment in the amount of THIRTY-FIVE THOUSAND AND NO/100 DOLLARS (\$35,000.00), of which Three Thousand Six Hundred Seventeen and 71/100 Dollars (\$3,617.71) represents the Department's enforcement costs, in settlement of the claims set forth in this Settlement Agreement. The total amount of money expended by Respondent on cash payments to the Department as described above, shall be considered a civil penalty for tax purposes, as required by La. R.S. 30:2050.7(E)(1).

V

Respondent further agrees that the Department may consider the inspection report(s), permit record(s), the Amended Consolidated Compliance Order & Notice of Potential Penalty and this Settlement Agreement for the purpose of determining compliance history in connection with any future enforcement or permitting action by the Department against Respondent, and in any such action Respondent shall be estopped from objecting to the above-referenced documents being considered as proving the violations alleged herein for the sole purpose of determining Respondent's compliance history.

VI

This Settlement Agreement shall be considered a final order of the Secretary for all purposes, including, but not limited to, enforcement under La. R.S. 30:2025(G)(2), and Respondent hereby waives any right to administrative or judicial review of the terms of this agreement, except such review as may be required for interpretation of this Settlement Agreement in any action by the Department to enforce this Settlement Agreement.

This Settlement Agreement is being made in the interest of settling the state's claims and avoiding for both parties the expense and effort involved in litigation or an adjudicatory hearing. In agreeing to the compromise and Settlement Agreement, the Department considered the factors for issuing civil penalties set forth in La. R. S. 30:2025(E) of the Act.

VIII

As required by law, the Department has submitted this Settlement Agreement to the Louisiana Attorney General for approval or rejection. The Attorney General's concurrence is appended to this Settlement Agreement.

ΧI

The Respondent has caused a public notice advertisement to be placed in the official journal of the parish governing authority in Bienville Parish, Louisiana. The advertisement, in form and wording approved by the Department, announced the availability of this Settlement Agreement for public view and comment and the opportunity for a public hearing. Respondent has submitted an original proof-of-publication affidavit and an original public notice to the Department and, as of the date this Settlement Agreement is executed on behalf of the Department, more than forty-five (45) days have elapsed since publication of the notice.

X

Payment is to be made within thirty (30) days from notice of the Secretary's signature. If payment is not received within that time, this Settlement Agreement is voidable at the option of the Department. The Respondent shall provide its tax identification number when submitting payment. Payments are to be made by check, payable to the Department of Environmental Quality, and mailed or delivered to the attention of Accountant Administrator, Financial Services Division, Department

of Environmental Quality, Post Office Box 4303, Baton Rouge, Louisiana, 70821-4303. Each payment shall be accompanied by a completed Settlement Payment Form attached hereto.

ΧI

In consideration of the above, any claims for penalties are hereby compromised and settled in accordance with the terms of this Settlement Agreement.

XII

Each undersigned representative of the parties certifies that he or she is fully authorized to execute this Settlement Agreement on behalf of his or her respective party, and to legally bind such party to its terms and conditions.

This AMENDED CONSOLIDATED COMPLIANCE ORDER & NOTICE OF POTENTIAL PENALTY is issued by the Louisiana Department of Environmental Quality (the Department), under the authority granted by the Louisiana Environmental Quality Act (the Act), La. R.S. 30:2001, et seq., and particularly by La. R.S. 30:2025(C), 30:2050.2 and 30:2050.3(B). This AMENDED CONSOLIDATED COMPLIANCE ORDER & NOTICE OF POTENTIAL PENALTY replaces AMENDED CONSOLIDATED COMPLIANCE ORDER & NOTICE OF POTENTIAL PENALTY, ENFORCEMENT TRACKING NO. WE-CN-21-00152A issued on January 14, 2022, in its entirety.

FINDINGS OF FACT

An authorized representative of the Department inspected the abovementioned facility or conducted a file review of the facility to determine the degree of compliance with regulations promulgated in the Louisiana Administrative Code, Title 33. The State regulatory citations for the violation(s) identified during the inspection and/or file review are indicated below.

The Respondent owns and/or operates a poultry processing facility located at 3867 Second St., Arcadia, Bienville Parish, Louisiana. The Respondent was issued Louisiana Pollutant Discharge Elimination System (LPDES) Permit LA0002844 on June 30, 2010, with an effective date of August 1, 2010, and expiration date of July 31, 2015. The Respondent submitted a renewal application on or about January 29, 2015, and LPDES Permit LA0002844 was administratively continued until it was reissued on April 25, 2016, with an effective date of June 1, 2016, and an expiration date of May 31, 2021. The Respondent submitted a renewal application on or about November 23, 2020, and LPDES Permit LA0002844 has been administratively continued. Under the terms and conditions of LPDES Permit LA0002844, the Respondent is permitted to discharge treated process wastewater, clean-up area effluent, refrigeration condenser overflow, boiler blowdown, truck washwater, chicken cage washwater, wood pallet washwater, and first flush stormwater runoff into local drainage, thence into Brinson Creek, thence into Black Lake, all waters of the state.

The Respondent was issued Consolidated Compliance order and notice of Potential Penalty (Conopp) WE-CN-13-00771 on or about November 26, 2013, which was amended as CONOPP WE-CN-13-00771A on or about May 22, 2014, which was amended as CONOPP WE-CN-13-00771B on or about November 14, 2014, which was amended as CONOPP WE-CN-13-00771C on or about May 26, 2015. The CONOPP cited the following violations: effluent exceedances reported during the monitoring periods between March 2012 and March 2015, a failure to sample, and a failure to submit a OMR in a timely manner. The Order required the Respondent to achieve and maintain compliance with Water Quality regulations and conditions contained in LPDES Permit LA0002844, submit a written report, and to comply with the approved schedule for the construction of an anoxic basin associated with the improvement of effluent limitation compliance. CONOPP WE-CN-13-00771C is a final action of the Department. On or about April 20, 2017, the Respondent met with the Department to discuss the CONOPP and status of the anoxic basin project. Ouring the meeting, the Respondent stated that significant progress had been made in connection with the exceedances, specifically noting that the anoxic basin project was completed on June 2, 2016, and that effluent limitations were met for the June 2016 monitoring period and that there had not been a toxicity exceedance since June 2016. A file review conducted by the Department on or about April 7, 2021, revealed that the Respondent continued to exceed permit effluent limitations. On or about November 29, 2021, the Respondent proposed to the Department a compliance schedule for construction of upgrades at the treatment system in order to achieve full compliance with the effluent limits established in LPDES Permit LA0002844. On or about June 8, 2022, the Respondent requested to amend the compliance schedule due to vender

	Date of Violation	Description of Violation
HI.	inspection(s) & File Review 7/28/2015 4/7/2021 12/8/2021 6/13/2022	The Respondent failed to comply with LPDES Permit LA0002844. Specifically, a review of Discharge Monitoring Reports (DMRs) between April 2015 and June 2022, revealed that the Respondent reported exceedances of permit effluent limitations for Total nitrogen, Whole effluent toxicity (WET), Total dissolved solids, Ammonia/total nitrogen, Fecal coliform, Total suspended solids, and Carbonaceous biological oxygen demand (See Attachment "A"). [Prior to June 1, 2016: LPDES Permit LA0002844, (Part I, pgs. 2-5 of 5; Part II, Section L.1.d; and Part III, Section A.2); After June 1, 2016: LPDES Permit LA0002844 (Effluent Limits and Monitoring Requirements, pgs. 1 & 2 of 6; Other Conditions, Section I.1.d; and Standard Conditions, Section A.2), La. IV.	Inspection(s) & File Review 7/28/2015 4/7/2021 6/13/2022	The Respondent failed to comply with LPDE5 Permit LA0002844. Specifically, a review of records between April 2015 and April 2022, revealed that the Respondent failed to report and/or sample the effluent for specified parameters at Outfall 001 on a weekly, monthly or quarterly basis (See Attachment "B"). [Prior to June 1, 2016: LPDE5 Permit LA0002844, (Part i, pgs. 2-5 of 5; Part II, Sections J, M.5, and N; and Part III, Sections A.2 and D.4); After June 1, 2016: LPDE5 Permit LA0002844 (Effluent Limits and Monitoring Requirements, pgs. 1 - 3 of 6; Other Conditions, Sections I.2.d and 3; and Standard Conditions, Sections A.2 and D.4), La. v.	Inspection(s) & file Review 12/7/2020 4/7/2021 6/13/2022	The Respondent failed to comply with LPDES Permit LA0002844. Specifically, the Respondent failed to submit accurate/complete DMRs for the October and November 2020 monitoring periods. Specifically, the Respondent reported an instantaneous minimum limitation value of 6.2 and 6.3 standard units (S.U.) or each respective DMR; however, data collected from daily logs for measurements at Outfall 001 by the Department during the Inspection indicated that the Respondent did not report the lowest pH value sampled and did not report each additional pH sample conducted that exceeded the instantaneous minimum limitation of 6 standard unit (S.U.) via a separate non-compliance report (NCR) accompanying the DMR as required by the permit. The Respondent's data is as follows:

- Prior to the issuance of additional appropriate enforcement action(s), you may request a meeting with the Department to present any mitigating circumstances concerning the violation(s). If you would like to have such a meeting, please Scott B. Pierce at (225) 219-3723 within ten (10) days of receipt of this NOTICE OF POTENTIAL PENALTY.

 The Department is required by a R.S. 20-20-25 (5/4) as a second of the second of t
- The Department is required by La. R.S. 30:2025(E)(3)(a) to consider the gross revenues of the Respondent and the monetary benefits of noncompliance to determine whether a penalty will be assessed and the amount of such penalty. Please forward the Respondent's most current annual gross revenue statement along with a statement of the monetary benefits of noncompliance for the cited violation(s) to the above named contact person within ten (10) days of receipt of this NOTICE OF POTENTIAL PENALTY. Include with your statement of monetary benefits the method(s) you utilized to arrive at the sum. If you assert that no monetary benefits have been gained, you are to fully justify that statement. If the Respondent chooses not to submit the requested most current annual gross revenues statement within ten (10) days, it will be viewed by the Department as an admission that the Respondent has the ability to pay the statutory maximum penalty as outlined in La. R.S. 30:2025.
- IV. The Department assesses civil penalties based on LAC 33:I.Subpart1.Chapter7. To expedite closure of this NOTICE OF POTENTIAL PENALTY portion, the Respondent may offer a settlement amount to resolve any claim for civil penalties for the violation(s) described herein. The Respondent may offer a settlement amount, but the Department is under no obligation to enter into settlement negotiations. The decision to proceed with a settlement is at the discretion of the Department. The settlement offer amount may be entered on the attached "CONSOLIDATED COMPLIANCE ORDER AND NOTICE OF POTENTIAL PENALTY REQUEST TO CLOSE" form. The Respondent may submit the settlement offer within one hundred and eighty (180) days of receipt of this NOTICE OF POTENTIAL PENALTY portion but no later than ninety (90) days of achieving compliance with the COMPLIANCE ORDER portion. The Respondent must include a justification of the offer. DO NOT submit payment of the offer amount with the form. The Department will review the settlement offer and notify the Respondent as to whether the offer is or is not accepted.

V. This CONSOLIDATED COMPLIANCE ORDER & NOTICE OF POTENTIAL PENALTY is effective upon receipt.

Arcadia Processing Plant Treatment Upgrade Project

includes the following:

- One Gorman Rupp T6 Return Activated Studge Pump and 6" return pipe to return activated studge from final clarifler to Anoxic Basin
- Three Gorman Rupp T* Recycle Pumps to recycle from Aeration Basin to Anoxic Basin
- One Gorman Rupp T6 Filter Feed Pump and two Parkson DynaSand Filters to filter effluent from final clarifler.
- Flow meters to measure flow pumped from Anaerobic Lagoon to Anoxic Basin and returned activated studge pumped from final clarifler to Anoxic Basin
- A 16" flow meter for the Anoxic recycle water and a 4" flow meter for the waste activated sludge
- Probes that will read influent TSS to the Anoxic and temperature, pH, TSS, DO, and Oxidation-Reduction Potential in the Aeration Basin

WHAT IS A SETTLEMENT AGREEMENT?

Once the Department has determined that a penalty is warranted for a violation, the Assistant Secretary of the Department, with the concurrence of the Attorney General, may enter into a settlement agreement with the Respondent as a means to resolve the Department's claim for a penalty.

HOW DOES THE SETTLEMENT AGREEMENT PROCESS WORK?

To begin the settlement agreement process, the Department must receive a written settlement offer. Once this offer is submitted, it is sent for approval by the Assistant Secretary of the Office of Environmental Compliance. The formal Settlement Agreement is drafted and sent to the Attorney General's office where the Attorney General has a 90 day concurrence period. During this time, the Respondent is required to run a public notice in an official journal and/or newspaper of general circulation in each affected parish. After which, a 45 day public comment period is opened to allow the public to submit comments. Once the Department has received concurrence, the settlement agreement is signed by both parties. The Department then forwards a letter to the responsible party to establish a payment plan and/or beneficial environmental project (BEP).

WHAT SHOULD I INCLUDE IN A SETTLEMENT AGREEMENT?

The Department uses the penalty determination method defined in LAC 33:1,705 as a guideline to accepting settlement offers. The penalty matrix is used to determine a penalty range for each violation based on the two violation specific factors, the nature and gravity of the violation and the degree of risk/impact to human health and property.

	NATURE AND GRAVITY OF THE VIOLATION			
		MAJOR	MODERATE	MINOR
DEGREE OF RISK OR MPAUT TO MUMAN HEALTH OP PROPERTY	MAJOR	\$32,500 to \$20,000	\$20,000 to \$15,000	\$15,000 to \$11,000
	MODERATE	\$11,000 to \$8,000	\$8,000 to \$5,000	\$5,000 to \$3,000
	MINOR	\$3,000 to \$1,500	\$1,500 to \$500	\$500 to \$100

Degree of Risk to Human Health or Property

Major: (actual measurable harm or substantial risk of harm) A violation of major impact to an environmental resource or a hazard characterized by high volume and/or frequent occurrence and/or high pollutant concentration.

Moderate: (potential for measurable detrimental impact) A violation of moderate impact and hazard may be one characterized by occasional occurrence and/or pollutant concentration that may be expected to have a detrimental effect under certain conditions

Minor: (no harm or risk of harm) A violation of minor impact are isolated single incidences and that cause no measurable detrimental effect or are administrative in nature.

Nature and Gravity of the Violation

Major: Violations of statutes, regulations, orders, permit limits, or permit requirements that result in negating the intent of the requirement to such an extent that little or no implementation of requirements occurred.

Moderate: Violations that result in substantially negating the intent of the requirements, but some implementation of the requirements occurred. Minor: Violations that result in some deviation from the Intent of the requirement; however, substantial implementation is demonstrated.

The range is adjusted using the following violator specific factors:

- 1. history of previous violations or repeated noncompliance;
- 2. gross revenues generated by the respondent;
- 3. degree of culpebility, recalcitrance, deflance, or indifference to regulations or orders;
- 4. Whether the Respondent has falled to mitigate or to make a reasonable attempt to mitigate the damages caused by the violation; and
- whether the violation and the surrounding circumstances were immediately reported to the department, and whether the violation was concealed or there was an attempt to conceal by the Respondent.

Given the previous information, the following formula is used to obtain a penalty amount.

Penalty Event Total * Penalty Event Minimum + (Adjustment Percentage x [Penalty Event Maximum - Penalty Event Minimum])

After this, the Department adds any monetary benefit of noncompliance to the penalty event. In the event that a monetary benefit is gained due to the delay of a cost that is ultimately paid, the Department adds the applicable judicial interest. Finally, the Department adds all response costs including, but not limited to, the cost of conducting inspections, and the staff time devoted to the preparation of reports and issuing enforcement actions.

WHAT IS A BEP?

A BEP is a project that provides for environmental mitigation which the respondent is not otherwise legally required to perform, but which the defendant/respondent agrees to undertake as a component of the settlement agreement.

Project categories for BEPs include public health, pollution prevention, pollution reduction, environmental restoration and protection, assessments and audits, environmental compliance promotion, and emergency planning, preparedness and response. Other projects may be considered if the Department determines that these projects have environmental merit and is otherwise fully consistent with the intent of the BEP regulations.

WHAT HAPPENS IF MY OFFER IS REJECTED?

If an offer is rejected by the Assistant Secretary, the Legal Division will contact the responsible party, or anyone designated as an appropriate contact in the settlement offer, to discuss any discrepancies.
