FISCAL AND ECONOMIC IMPACT STATEMENT  
FOR ADMINISTRATIVE RULES

The following information is requested in order to assist the Legislative Fiscal Office in its review of the fiscal and economic impact statement and to assist the appropriate legislative oversight subcommittee in its deliberation on the proposed rule.

- A. Provide a brief summary of the content of the rule (if proposed for adoption, or repeal) or a brief summary of the change in the rule (if proposed for amendment). Attach a copy of the notice of intent and a copy of the rule proposed for initial adoption or repeal (or, in the case of a rule change, copies of both the current and proposed rules with amended portions indicated).

This rule corrects errors that have been discovered in the Environmental Regulatory Code. Language found to be redundant or not equivalent with federal regulations has been deleted, and some wording has been restructured. In addition, certain improper regulation cross-references have been corrected, particularly in LAC 33:V.4143, which contains cross-references to superseded regulations.

- B. Summarize the circumstances which require this action. If the Action is required by federal regulation, attach a copy of the applicable regulation.

Maintenance of the regulations is part of the responsibility of the department. An aspect of maintenance is for the department to correct errors when they are found.

- C. Compliance with Act 11 of the 1986 First Extraordinary Session  
(1) Will the proposed rule change result in any increase in the expenditure of funds? If so, specify amount and source of funding.

The proposed rule change will not result in any increase in the expenditure of funds.

- (2) If the answer to (1) above is yes, has the Legislature specifically appropriated the funds necessary for the associated expenditure increase?

(a) \_\_\_ Yes. If yes, attach documentation.

(b) \_\_\_ No. If no, provide justification as to why this rule change should be published at this time.

This question is not applicable.
