NOTICE OF INTENT

**Department of Environmental Quality
Office of the Secretary
Legal Affairs and Criminal Investigations Division**

**Emission Standard for Asbestos
(LAC 33:III.5151)(AQ396)**

Under the authority of the Environmental Quality Act, R.S. 30:2001 et seq., and in accordance with the provisions of the Administrative Procedure Act, R.S. 49:950 et seq., the secretary gives notice that rulemaking procedures have been initiated to amend the Air regulations, LAC 33:III.5151 (AQ396).

LAC 33:III.5151 regulates the owners and/or operators of demolition or renovation activities that disturb asbestos at or above stated thresholds, including the removal of regulated asbestos-containing materials (RACM) or the renovation or demolition of asbestos-containing materials. Residential exemptions are not currently addressed in LAC 33:III.5151. In order to address this oversight, we propose the following changes to clarify that isolated individual residences that are demolished are exempt from the requirements in LAC 33:III.5151. The basis and rationale for the proposed rule are to clarify when isolated individual residences that are demolished by an individual or local governmental unit are exempt from the provisions of LAC 33:III.5151. This Rule meets an exception listed in R.S. 30:2019(D)(2) and R.S. 49:963 B(3); therefore, no report regarding environmental/health benefits and social/economic costs is required.

**Title 33
ENVIRONMENTAL QUALITY
Part III. Air**

**Chapter 51. Comprehensive Toxic Air Pollutant
Emission Control Program**

Subchapter M. Asbestos

§5151. Emission Standard for Asbestos

A. - F.I.F. ...

g. Residential Exemptions

1. The demolition or renovation of any residential building with four or fewer dwelling units is exempt from the requirements of this Subsection as follows.

(a). A demolition or renovation of a residential building with four or fewer dwelling units by any person, for any reason, if the residential building is not an installation or part of an installation, as defined in Subsection B of this Section, and the activity is not part of a planned commercial or public project, and is not intentionally burned. Any structure, installation, or building that was previously subject

to this Subchapter is not excluded, regardless of its current use or function.

(i). The demolition or renovation of any residential building with four or fewer dwelling units that is part of a planned commercial or public project, or is considered an installation or part of an installation, as defined in Subsection B of this Section, is subject to the requirements of this Subsection.

(b). For purposes of this Section, the demolition or renovation of a residential building with four or fewer dwelling units that has been declared a safety hazard or public nuisance by local government is not considered a planned public project if it is not part of a larger planned project, i.e., is not included in the development of new commercial, public, or community facilities or roads. In this case, the residential building is not considered an installation and the activity is exempt from the requirements of this Subsection.

b. -1.

m. All demolition and renovation activities shall take all precautions to prevent particulates from becoming airborne, i.e., using water to control the dust particles, as required by LAC 33:III.1305.A.

n. Circumvention. No owner or operator of a renovation, demolition, or asbestos-contaminated debris activity (ACDA) shall cause or permit a planned project to be subdivided to circumvent the requirements applicable to a renovation, demolition, installation, or ACDA, i.e., awarding to multiple contractors, or awarding work to the same contractor under multiple scopes of work.

FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES
RULE TITLE: Emission Standard for Asbestos

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

This proposed rule change clarifies that demolition of blighted residences by local governmental units are exempt from the reporting, handling, and hauling/disposal costs outlined in LAC 33:III.5151 that are associated with regulated asbestos projects. If this proposed rule change is not promulgated then all demolitions of blighted residences by local governmental units will be considered regulated projects and the costs of the demolitions will increase. These increased costs will limit and delay the removal of blighted residences that present health and safety hazards. The department anticipates no change to State governmental units.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

There is no effect on revenue collections of state or local governmental units.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS, SMALL BUSINESSES, OR NONGOVERNMENTAL GROUPS (Summary)

There are no costs or economic benefits to directly affected persons, small businesses, or non-governmental groups.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

There is no effect on competition and employment related to this rule change.
