In accordance with the Coastal Zone Act Reauthorization Amendments (CZARA) and LAC 33:IX.1113.B.10 and LAC 33:IX.1109.A.2, the applicant certifies that the following conditions will be implemented to control post-construction storm water run-off:

- ❖ By design or performance:
  - After construction has been completed and the site is permanently stabilized, reduce the average annual TSS loadings by 80 percent. For the purposes of this measure, an 80 percent TSS reduction is to be determined on an average annual basis (Based on the average annual TSS loadings from all storms less than or equal to the 2-year/24hour storm. TSS loadings from storms greater than the 2-year/24-hour storm are not expected to be included in the calculation of the average annual TSS loadings), or
  - Reduce the post development loadings of TSS so that the average annual TSS loadings are no greater than predevelopment loadings, and
- ❖ To the extent practicable, maintain post development peak runoff rate and average volume at levels that are similar to predevelopment levels.

Yes, I certify that the above requirements have been met.

**SECTION V- CERTIFICATION**

I certify under penalty of law that project activities were completed in accordance with the requirements of the Clean Water Act and the Louisiana Environmental Quality Act, and specifically in accordance with the LPDES Large Construction General Permit, LAR100000, under which the storm water discharges related to the construction were authorized. I also certify that a storm water pollution prevention plan, including both construction and post construction controls, has been prepared for the site in accordance with the permit and that such plan complies with approved State, Tribal and/or local sediment and erosion plans or permits and/or storm water management plans or permits. I am aware that signature and submittal of the NOE is deemed to constitute my determination of eligibility under one or more of the requirements of Permit Part I.A.3.e(1), related to the Endangered Species Act requirements. To the best of my knowledge, I further certify that such discharges and discharge related activities will not have an effect on properties listed or eligible for listing on the National Register of Historic Places under the National Historic Preservation Act, or are otherwise eligible for coverage under Part I.A.3.f of the permit. I am also aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
