

# 2025 Louisiana Dry Cleaners - Compliance Calendar

## SMALL BUSINESS environmental assistance program

(800) 259-2890

sbap@la.gov

[www.deq.louisiana.gov/smallbusiness](http://www.deq.louisiana.gov/smallbusiness)

This calendar has been provided for you to keep records required by the U.S. Environmental Protection Agency (EPA) and the Louisiana Department of Environmental Quality (LDEQ). These records must be kept at your facility for a period of FIVE YEARS.

### INSTRUCTIONS:

#### Weekly Leak Detection & Maintenance Records

If you buy 140 gallons or more of PERC per year, you must check your machine weekly for leaks and record the results. If you buy less than 140 gallons per year, you must conduct leak inspections at least every other week. Record the results of the inspections on the calendar.

If leaks are found, they must be repaired within 24 hours. Indicate in the "Date Repaired" column when repairs are completed. If parts must be purchased, indicate the dates ordered and received. Parts must be ordered within 2 days of leak detection and installed within 5 days of receipt.

#### PERC Purchase 12 Month Running Total

First enter the running total from the previous month. Then subtract the amount purchased this month last year. Last, add the current month's purchases.

#### Refrigerated Condenser Monitoring Log

Check the outlet temperature of the refrigerated condenser every week. Record the temperature in the space provided. If the temperature is NOT less than or equal to 45 degrees F (7.2 degrees C), the machine must be repaired.

#### Hazardous Waste

You must have an EPA Hazardous Waste Number. When your licensed service provider picks up your waste, enter the date and manifest number.
