

Department of Environmental Quality Office of Environmental Services Waste Tire Permits P.O. Box 4313 Baton Rouge, LA 70821-4313 (225) 219-3181	<h1>LOUISIANA</h1> <h2>WASTE TIRE END-MARKET USE PROJECT REQUEST APPLICATION</h2>	
--	---	---

NOTE: A *Guidance* document has been prepared by the Louisiana Department of Environmental Quality (LDEQ) to assist the applicant in completing this Waste Tire End-Market Use Project Request Form. The *Guidance* should be consulted and utilized prior to providing responses to the information required to be contained in this application.

ALL facility plans, specifications, and operations represented and described in this application shall be prepared under the supervision of, and certified by, a **professional engineer licensed in the State of Louisiana.**

PLEASE TYPE OR PRINT

1. Processor Information

A. <i>Processor Name</i>	
B. <i>Agency Interest (AI) Number</i>	C. <i>Waste Tire Facility ID</i>

2. End-Market Use Project Site Location Information

A. <i>Agency Interest (AI) Number (Assigned by the Department)</i>		B. <i>Facility ID Number (Assigned by the Department)</i>	
C. <i>Name of Business/Government or Organization</i>			
D. <i>Physical Location/Street Address</i>			E. <i>Physical Address Parish/County</i>
F. <i>Physical Address City</i>	G. <i>Physical Address State</i>	H. <i>Physical Address Zip</i>	I. <i>Physical Address Country (if not the US)</i>
J. <i>Mailing Address</i>	K. <i>Mailing City</i>	L. <i>Mailing State/Country</i>	M. <i>Mailing Zip</i>

3. Project Contact Information/Personnel

Select the primary contact by checking the box after the person who will be the primary contact for questions regarding this application. Only one primary contact should be selected. If any contact is the same as another contact in the list, indicate in the "Name" blank that it is the same as contact X (e.g., the on-site contact is the same as contact "a," the facility manager).

a. Processor Contact Information

Name		<input type="checkbox"/> Primary Contact
Title	Company	
Business Phone	Cell Phone (Optional)	E-mail (Optional)

b. End-Market User Contact Information

Name		<input type="checkbox"/> Primary Contact
Title	Company	
Business Phone	Cell Phone (Optional)	E-mail (Optional)

c. Person Most Knowledgeable About End-Market Use Project

Name		<input type="checkbox"/> Primary Contact
Title	Company	
Business Phone	Cell Phone (Optional)	E-mail (Optional)

4. Certification and Signatures

CERTIFICATION OF PROCESSOR: "I have personally examined and am familiar with the information submitted, and I hereby certify under penalty of law that this information is true, accurate, and complete to the best of my knowledge. I am aware that there are significant penalties for submitting false information, including the possibility of fine and/or imprisonment."

Name	Title
Signature of Processor	Date

CERTIFICATION OF END-MARKET USER: "I have personally examined and am familiar with the information submitted, and I hereby certify under penalty of law that this information is true, accurate, and complete to the best of my knowledge. I am aware that there are significant penalties for submitting false information, including the possibility of fine and/or imprisonment."

Name	Title
Signature of End Market User	Date

5. End-Market Use Project Description

A. Type of Application <input type="checkbox"/> New Application <input type="checkbox"/> Modification Application	
B. Type of Project <input type="checkbox"/> One Time Use Project (Complete Section 6) <input type="checkbox"/> Extended Storage Project (Complete Section 7)	C. Material Used <input type="checkbox"/> Crumb Rubber <input type="checkbox"/> Shreds <input type="checkbox"/> Tire Derived Fuel <input type="checkbox"/> Whole Tires <input type="checkbox"/> Other:
D. Project Start Date	E. Project End Date

6. One Time End-Market Use Project Description (* See Section 10533 for Project Specifications)

A. Project Use(s) <input type="checkbox"/> Lightweight Backfill* <input type="checkbox"/> Leachate collection systems in new cell construction* <input type="checkbox"/> Septic system drain fields <input type="checkbox"/> Other:	10532.A.3 uses <input type="checkbox"/> Bulkheads* <input type="checkbox"/> Tire Derived Fuel (TDF) <input type="checkbox"/> Crumb Rubber Application
B. Description of Project (who, what, when, where, and how of the project). Attach detailed site drawings and/or pictures of project location.	
C. Estimate of waste tire material needed to complete the project. Attach calculations used to determine the amount of material needed: _____ pounds	

D. Description of the material to be replaced and the engineering properties of the waste tires/waste tire material that provide equal or superior performance or lower cost to conventional technologies:

7. Extended Storage End-Market Use Project Description (*See Section 10533 for Project Specifications)

- A. Project Use(s)
- | | |
|---|---|
| <input type="checkbox"/> Tire Derived Fuel | <input type="checkbox"/> Slope Stabilization/Erosion Control |
| <input type="checkbox"/> Gas Collection Systems * | <input type="checkbox"/> Leachate Collection Systems in New Cell Construction * |
| <input type="checkbox"/> Levee Construction | <input type="checkbox"/> Roadway Stabilization |
| <input type="checkbox"/> Land Reclamation Pilot Project | <input type="checkbox"/> Other: |

B. Description of Project (who, what, when, where, and how of the project). Attach detailed site drawings and/or pictures of project location.

C. Estimate of waste tire material needed to complete the project. Attach calculation used to determine the amount of material needed: _____ pounds

D. Description of the material to be replaced and the engineering properties of the waste tires/waste tire material that provide equivalent or improved performance or lower cost to conventional technologies:

E. For Land Reclamation Pilot Projects only. Include information specified in LAC 33:VII.10515.B.

Attachments (check the box indicating the attachments to this application)

<input type="checkbox"/>	Site Master Plan, including property lines, buildings, facilities, excavations, drainage, roads, area where waste tires and/or waste tire material will be used, and other elements of the end-market use project site.
<input type="checkbox"/>	Calculations used to estimate the amount of waste tires and/or waste tire material used in the project.
<input type="checkbox"/>	Documents or other relevant materials, such as articles regarding industry specifications (e.g. ASTM, API, etc.) or protocols that describe conventional technologies as compared to the waste tires and/or waste tire material.
<input type="checkbox"/>	For land reclamation projects. Plan describing which of the methods listed in LAC 33:VII.10515.B. will be used to confirm the thickness of cover soil.
<input type="checkbox"/>	For International Markets: Copy of signed contract/agreement between processor and/or broker with international end-market user project owner.
