1. Following public notice and with EPA approval the assessment of impaired for Oxygen, Dissolved was removed from subsegment LA030301\_00 on August 23, 2017. The original assessment was made in error using data from the wrong water quality network site.

2. IR category changed to IRC 4a during EPA review process. Impairment originally assigned to IRC 5. It was later found that a TMDL had been completed.

3. For the 2016 IR EPA deferred its decision on this water body. As a result, the dissolved oxygen assessment reverts to EPA's 2014 IR decision of impaired, IRC 5.
