

**STATE OF LOUISIANA  
DEPARTMENT OF ENVIRONMENTAL QUALITY**

**IN THE MATTER OF:**

**AGENCY INTEREST NO. 225443**

**HURRICANE DELTA**

**SIXTH AMENDED DECLARATION OF EMERGENCY  
AND ADMINISTRATIVE ORDER**

Pursuant to the authority granted to me by Louisiana Revised Statutes 30:2001 *et seq.*, and particularly La. R.S. 30:2033 and 2011(D)(6), I hereby make the following findings, declaration and order:

**FINDINGS AND DECLARATION**

1. Hurricane Delta, (hereinafter referred to as "**the EVENT**") made landfall as a Category 2 storm, causing adverse impact and widespread damage to the State of Louisiana.
2. By State of Louisiana Proclamation No. **133 JBE 2020**, Louisiana Governor John Bel Edwards, pursuant to the Louisiana Homeland Security and Emergency Assistance and Disaster Act, La. R.S. R.S. 29:271 *et seq.*, declared on October 6, 2020, that a state of emergency existed in the State of Louisiana, as **the EVENT** posed significant risk for storm surge, high winds, and flooding from rainfall in multiple parishes, thereby threatening the lives and property of the citizens of the State of Louisiana.
3. I find that **the EVENT** has created conditions that require immediate action to prevent irreparable damage to the environment and serious threats to life or safety. To address these conditions, my predecessors in office previously issued a Declaration of Emergency and Administrative Order on October 8, 2020. This Order was amended on October 16, 2020. This Order was amended again on November 16, 2020. This Order was amended again on November 28, 2020. My predecessors in office issued extensions on December 28, 2020, January 27, 2021, February 26, 2021, March 29, 2021, April 28, 2021, May 28, 2021, June 28, 2021, July 28, 2021, August 27, 2021, September 30, 2021, October 29, 2021, November 29, 2021, December 29, 2021, January 28, 2022, February 28, 2022, March 28,

April 3, 2024

2022, April 28, 2022, May 27, 2022, June 27, 2022, July 27, 2022, August 26, 2022, September 26, 2022, October 26, 2022, November 23, 2022, December 22, 2022, January 23, 2023, February 23, 2023, March 23, 2023, April 21, 2023, May 19, 2023, June 19, 2023, July 19, 2023, August 18, 2023, September 18, 2023, and October 18, 2023. The Fourth Amended Declaration Of Emergency and Administrative Order was issued on November 29, 2023 by my predecessor in office. I issued The Fifth Amended Declaration Of Emergency and Administrative Order on February 7, 2024. After review of the conditions, I find that an additional amendment to the previous Declaration of Emergency and Administrative Order (hereinafter “**Sixth Amended Order**”) is required.

**WHEREFORE**, I hereby declare that an emergency exists, and amend the previous Declaration of Emergency and Administrative Order issued on October 8, 2020, the First Amendment to the Declaration of Emergency and Administrative Order issued on October 16, 2020, the Second Amendment to the Declaration of Emergency and Administrative Order issued on November 16, 2020, the Third Amendment to the Declaration of Emergency and Administrative Order issued on November 28, 2020, the Fourth Amended Declaration Of Emergency and Administrative Order issued on November 29, 2023, the Fifth Amended Declaration Of Emergency and Administrative Order issued on February 7, 2024 to include the following measures deemed necessary to prevent irreparable damage to the environment and serious threats to life or safety. This **Sixth Amended Order** supersedes all prior Declarations of Emergency and Administrative Orders that my predecessors in office had issued to address this **EVENT**. This **Sixth Amended Order** applies to the following parishes that shall herein be referred to as the “**Emergency Areas**”: **only to the parishes of Allen, Beauregard, Calcasieu, and Cameron**

## ORDER

### **§ 1. Solid Waste Management**

- a. State of Louisiana “Comprehensive Plan for Disaster Clean-up and Debris Management,” (the Debris Management Plan)

When handling and managing wastes generated as a result of the **EVENT**, owners and operators of solid waste management facilities and local governments shall adhere to the Debris Management Plan except where the Debris Management Plan may be in conflict

April 3, 2024

with the provisions of this Order, in which case the provisions of this Order shall prevail. The Debris Management Plan contains provisions and instructions for handling various types of waste material and for locating and receiving authorization for Emergency Debris Sites. A copy of the Debris Management Plan can be obtained via LDEQ's website at the following link,

<http://deq.louisiana.gov/page/disaster-debris-management>.

b. Permitted Solid Waste Management Facilities

i. Owners and operators of solid waste management facilities permitted by the Department before the **EVENT** are authorized to make all necessary repairs to restore essential services and the functionality of storm water management and leachate collection systems damaged by the **EVENT**, without prior notice to the Department. Within thirty (30) days of commencing the work of such repair or replacement, however, the permittee shall notify the Department in writing, describing the nature of the work, giving its location, and providing the name, address, and telephone number of the representative of the permittee to contact concerning the work.

ii. Permitted facilities within or outside of the Emergency Area, which accept **EVENT**-generated debris in accordance with the terms of this Order, may accept **EVENT**-generated debris for disposal or storage without the need to first modify existing permits, as follows:

(1). Prior notification is submitted to the Department describing any proposed deviations from permit conditions;

(2). Any proposed deviations from permit limits must be within the bounds of engineering assumptions used in the design of the facility, and conducted in accordance with the Debris Management Plan; and

(3) Written approval by the Department (including electronic mail) of the proposed deviations is received.

iii. Operators of permitted facilities may request extended hours of operation and increased solid waste acceptance rates to facilitate recovery and clean-up efforts. The Department may approve such requests for the duration of the Order without the need for a permit modification.

iv. Operators of permitted facilities approved for permit deviations under this Order may be required to submit application for modifications of their existing permits

April 3, 2024

to address any long-term impacts of accepting **EVENT**-generated debris on operations and closure that are not addressed in existing permits if it is determined long term impacts will result from these activities. Long-term impacts are those that will extend past the expiration date of this Order. The requests for modification shall be submitted no later than six (6) months after the date the Governor declared the emergency, unless otherwise extended by the Department. No permit fee will be required for any modifications necessitated solely by the clean-up activities resulting from the **EVENT**. The Department may, for good cause shown, issue a temporary authorization pursuant to LAC 33:VII.509.B.1.a for activities that are addressed in a permit modification request as provided for in this subsection, to authorize operations after expiration of this Order, pending a decision on the modification request.

- i. White goods (e.g., air conditioners, stoves, range tops, refrigerators and freezers from which food has been removed) shall be stored in an area separate from other solid wastes and in a manner that prevents vector and odor problems. No white goods may be stored in or on any permitted landfill cells that have not undergone final closure and have not received written authorization from the LDEQ specifically allowing storage in that area. All white goods shall be removed from the storage facility or staging area and sent offsite for recycling, or recycled onsite, within ninety (90) days of initial receipt at the site.

- c. Except as indicated herein, Type III (C&D debris and woodwaste) landfills shall only dispose of C & D debris (i.e., nonhazardous waste generally considered not water-soluble that is produced in the process of construction, remodeling, repair, renovation, or demolition of structures, including buildings of all types (both residential and nonresidential) as defined in LAC 33:VII.115, and any other materials that may be allowed by the facility's permit. Solid waste that is not C&D debris (even if resulting from the construction, remodeling, repair, renovation, or demolition of structures) includes, but is not limited to, regulated asbestos-containing material (RACM) as defined in LAC33:III5151.B, white goods, creosote-treated lumber, and any other item not an integral part of the structure. Solid waste and debris other than C&D debris and woodwaste, such as white goods, putrescible waste, and household waste, shall be removed from the waste stream prior to disposal in a permitted Type III landfill.

April 3, 2024

Type III landfills located in Cameron Parish and Calcasieu Parish are authorized to dispose of furniture, carpet, and mattresses generated by the **EVENT** in addition to C&D debris and woodwaste if the following conditions are satisfied:

- i. The facility operator shall verify that any local government or its contractor collecting the waste has an independent monitor monitoring the debris collection to ensure that non-acceptable wastes are not sent to the landfill.
- ii. The facility operator shall have a minimum of two independent monitors at each landfill working face during all hours of operation to ensure that non-acceptable wastes are not disposed of in the landfill.
- iii. The facility operator shall cover each landfill working face every seven days, unless a different schedule is approved by the Department.
- iv. The facility operator shall transport non-acceptable solid waste and other debris removed from the waste stream to an approved site for management, recycling and/or disposal.

d. Emergency Debris Sites

i. Upon the declaration of an emergency by LDEQ and the issuance of this Order, local governments and state agencies may “activate” a pre-approved emergency debris site. Upon activation, the governmental body shall notify LDEQ Headquarters via the debris hotline (225-364-7901) that the site is being activated. This verbal notification shall occur as soon as practicable depending on communication capability. If LDEQ Headquarters does not have communication capability, please call one of LDEQ’s regional offices listed in Appendix A.

Written notification (Written Notification of the Activation of Pre Approved Emergency Site) shall be sent to the LDEQ Regional Manager and the LDEQ Headquarters within five (5) days of verbally activating the site, or as soon as mail delivery is possible. A copy of the form is contained in the Debris Management Plan or can be obtained via LDEQ’s website at the following link:

<http://deq.louisiana.gov/page/disaster-debris-management>.

LDEQ Headquarters address is as follows: Waste Permits Division, Louisiana Department of Environmental Quality, Post Office Box 4313, Baton Rouge, LA 70821-4313 or fax (225) 325-8236 or email [deqdebrisrequest@la.gov](mailto:deqdebrisrequest@la.gov).

April 3, 2024

ii. New temporary emergency debris sites may be considered in accordance with procedures contained in the Debris Management Plan. Authorizations may be requested by providing a notice to the Department on approved forms (Emergency Debris Site Request Form). The request forms can be obtained via LDEQ's website at the following link:

<http://deq.louisiana.gov/page/disaster-debris-management>.

New temporary emergency debris sites can be requested as follows:

- (1). Emailing a completed request form to [deqdebrisrequest@la.gov](mailto:deqdebrisrequest@la.gov);
- (2). Faxing a completed request form to (225) 325-8236, or
- (3). If a request form is not immediately available, the local government can call the emergency debris hotline at (225) 364-7901, and provide the information over the phone to receive verbal approval to stage. The verbal request shall be followed up with a written request as soon as possible after mail delivery is available but no later than 21 days after verbal approval is given.

iii. All temporary and activated pre-approved emergency debris sites accepting vegetative debris shall submit completed weekly debris management report (WDMR) forms to the Department each week, no later than Sunday, during operations until the debris site is completely closed or deactivated and the final report has been submitted in accordance with the Debris Management Plan. A copy of the WDMR form is contained in the Debris Management Plan or can be obtained via LDEQ's website at the following link,

<http://deq.louisiana.gov/page/disaster-debris-management>.

d. Construction and demolition debris generated from residential structures of four units or less that are subject to a government-ordered demolition shall be disposed of in accordance with the Debris Management Plan except Regulated Asbestos Containing Material (RACM) shall be disposed of in a Type I/II landfill. A request by a landfill owner or operator for authorization to accept such RACM must include a certification that the owner or operator will manage the RACM in accordance with the landfill's QA/QC plan and LDEQ requirements. The Department will provide a written response to the request for authorization to accept solid waste and asbestos containing material in a Type I or II landfill.

April 3, 2024

**§ 2. Open Burning**

The Department will consider, on an individual basis, requests for approval for open burning, by persons other than local governments or their agents, of **EVENT**-generated trees, leaves, vines, twigs, branches, grass, and other vegetative debris. Any such burning approved by the Department must be conducted in compliance with the requirements of the Debris Management Plan and LAC 33:III.1109.D.6. and as authorized by the Department. Local governments and their agents shall follow the provisions of the Debris Management Plan. If a burn ban is in effect at the local and/or state level, the Responsible Official designated for the applicable Emergency Debris Site shall ensure compliance with the burn ban and shall not burn vegetative debris when prohibited.

**§ 3. Records Management**

Copies of LDEQ documents are usually available online in LDEQ's Electronic Document Management System (EDMS). The EDMS is available at <http://edms.deq.louisiana.gov>.

Additional documents may be available by placing a Public Records Request using the online form at <http://edms.deq.louisiana.gov/prr> or the printable paper form available at <http://deq.louisiana.gov/assets/docs/General/PublicRecordsRequestForm.pdf>. There is no charge to replace copies of documents destroyed by **EVENT**. Please contact Records Management with any questions at (225) 219-3171 or [deqrecords@la.gov](mailto:deqrecords@la.gov).

**§ 4. General Conditions**

a. This Order does not convey any property rights or any rights or privileges other than those specified in this Order.

b. This Order only serves as relief for the duration of this Order from the regulatory and proprietary requirements of the Department, and does not provide relief from the requirements of other federal, state, and local agencies. This Order therefore does not negate the need for the property owner or facility operator to obtain any other required permits or authorizations, nor from the need to comply with all the requirements of those agencies.

April 3, 2024

**§ 5. General Limitations**

The Department issues this Order solely to address the emergency created by the **EVENT**. This Order shall not be construed to authorize any activity within the jurisdiction of the Department except in accordance with the express terms of this Order. Under no circumstances shall anything contained in this Order be construed to authorize the repair, replacement, or reconstruction of any type of unauthorized or illegal structure, habitable or otherwise.

**§ 6. Other Authorizations Required**

Nothing in this Order shall eliminate the necessity for obtaining any other federal, state, or local permits or other authorizations that may be required.

**§ 7. Completion of Authorized Activities**

All activities authorized under this Order must be commenced before the expiration of this Order unless otherwise provided in an authorization or permit. The deadline for commencement under any authorization or permit issued under this Order may be extended on a showing that contractors or supplies are not available to commence the work, or if additional time is needed to obtain any required authorization from the Federal Emergency Management Agency, the U.S. Army Corps of Engineers, or other local, state, or federal agencies.

**§ 8. Amendments**

This Order may be amended as required to abate the emergency.

April 3, 2024

§ 9. **Expiration Date**

This Declaration of Emergency and Administrative Order shall take effect immediately upon execution by the Secretary of the Department, and shall expire on August 7, 2024, at 11:59 P.M., unless modified or extended by further order.

**DONE AND ORDERED** this 9<sup>th</sup> day of April, 2024, in Baton Rouge, Louisiana.

Aurelia S. Giacometto  
Secretary
