

Online Dresser meeting cut short, to be rescheduled

The online public meeting scheduled for June 10 will be rescheduled. The agency attempted to hold the meeting Wednesday evening, but encountered Internet connectivity problems which caused the meeting to be cut short. LDEQ apologizes for any inconvenience this action has caused for citizens and stakeholders.

The PowerPoint slides, video presentations from the interrupted meeting and answers to the online questions received on June 10 or earlier will be posted online on the LDEQ website in the next few days.

If you emailed a question specific to your property with a return email address, you will receive a reply to your question. As soon as the technical issues are resolved, a new date will be set for the online meeting.

Please monitor the Dresser page on the LDEQ website for the latest information:
